ASX RELEASE

For Immediate Release

19 October 2011

2011 Annual Report, Notice of Annual General Meeting and Proxy Form

Attached are electronic copies of the Marmota Energy Limited 2011 Annual Report, Notice of Annual General Meeting and Proxy Form which have been mailed to shareholders.

Yours faithfully

Virginia Sutell
Company Secretary

A sepia-toned photograph of an oil rig and workers at sunset. In the foreground, a worker in a hard hat and safety vest is crouching on the ground, looking at a circular map spread out on the dirt. In the background, a tall metal derrick of an oil rig stands against a sky filled with wispy clouds. Several other workers in hard hats and safety vests are standing near the rig and a large truck. The overall atmosphere is industrial and rugged.

ANNUAL GENERAL MEETING

The 2011 Annual General Meeting will be held at:
Business SA, 136 Greehill Road, Unley, South Australia
on 18th November 2011 commencing at 11:30am.
A formal notice is mailed to shareholders with the
distribution of this report.

CHAIRMAN'S REPORT

■ DEAR FELLOW SHAREHOLDERS

I am pleased to present this fourth annual report of Marmota Energy Limited ("Marmota" or the "Company"). Since listing in late 2007, Marmota Energy Limited has developed a project portfolio that represents a high quality diversified commodity stance across the uranium, copper, gold and iron ore spaces. Thus, spreading the Company's commodity risk in a fractious global market atmosphere.

The year has seen turbulent market conditions prevail for both financial markets and for the nuclear fuel and uranium industries. Uranium prices, which rose to a record \$136 a pound in 2007 before falling to about \$40, started to rebound last year as China increased the use of nuclear power to curb emissions from burning coal. Even after the tragic events at Fukushima, nations such as China and India have recommitted to a nuclear energy future, which could bolster prices of the nuclear fuel in the longer term.

In a carbon constrained world the outlook for the requirement of developed nations, and the long term requirement of developing nations, to provide consistent base load power while reducing carbon emissions remains unchanged. The continued urbanisation of China and India in particular, is set to drive demand into the future for a wide variety of commodities with uranium expected to feature prominently in the mix. China plans to boost nuclear capacity to eight times the current level by 2020 followed by India's plans to boost nuclear power production by thirteen times by 2030. The nuclear power industry is also flourishing in South Korea (a country one tenth the size of South Australia), which plans to add as many as ten new plants by 2020 bringing their tally up to 31.

Even here in Australia the community is commencing debate about future energy security with reports commissioned by the previous federal government indicating that cost additions to fossil fuel based generation (carbon tax) would make nuclear electricity competitive in Australia.

Global uranium demand is set to increase some 33% by 2020, according to the World Nuclear Association. Currently, uranium production does not meet the demand of the industry, and the projections for production versus demand indicate that this gap will continue to widen going into 2020. This will require a significant jump in exploration and discovery rates globally over the short to medium term to ensure certainty of supply. Given the drop off in exploration globally due to the effects of the recent Global Financial Crisis, and more recently the events in Japan it will be unlikely that this shortfall will be met, leaving significant opportunity for further spot price rises as the sector progresses toward a 2014-15 supply crunch.

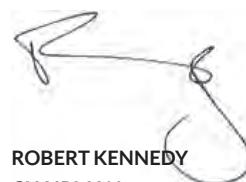

Through the continued development of Marmota's strategically located Junction Dam and Pundinya uranium projects, the Company is well positioned in the uranium commodity space. Exploration results from the 2011 Junction Dam drilling program have confirmed significant expansion potential along an approximate 15km strike length of uranium mineralisation. It is expected this will facilitate a large upgrade to the exploration target for uranium at Junction Dam.

Along with this, Marmota has moved to enhance its multi commodity stance by advancing its copper, gold and iron ore potential projects in South Australia and overseas in Nevada (United States).

At the Melton copper-gold project on South Australia's Yorke Peninsula, significant grades of up to 2.25% copper and 112.1 g/t silver were intercepted in Phase 2 drilling completed earlier this year. Exploration is being advanced across all these projects and will be discussed in further detail in the Operations Report.

With the significant potential of the Company's portfolio of projects, an aggressive exploration and business development program is continuing. Your Company's experienced and committed team of geoscientists and managers is advancing key projects which the company believes to have a high discovery and development potential.

The Directors are excited with the progress being made to date and look forward to this year's work programme results. I thank our directors, officers and staff for their tireless hard work during 2011 and their support of the Company goals and look forward to their same commitment in 2012.

ROBERT KENNEDY
CHAIRMAN

Marmota Energy Limited

REVIEW OF OPERATIONS

JUNCTION DAM URANIUM PROJECT (SA)

- » Significant uranium mineralisation defined across three adjacent target areas within a 15km strike length open to the north and south.
- » Maiden resource modelling investigated for the Saffron prospect.
- » Mineralogical analysis confirms uranium minerals at Saffron have good potential for in-situ leach extraction.
- » Marmota Energy set to increase its share of the uranium rights from 74.5% in 2011 from drilling and exploration currently underway at Junction Dam.

WESTERN SPUR IRON ORE PROJECT (SA)

- » Significant iron ore discovery.
- » Assay results from sampling returning grades of economic significance for both iron and manganese.

MELTON COPPER-GOLD PROJECT (YORKE PENINSULA – SA)

- » Phase 2 drill testing of the Miranda target completed.
- » Significant copper grades intersected.
- » Results include 9 metres at 1.03% copper including 1 metre at 2.25% copper and 112.1 g/t Ag.

WEST MELTON PROJECT (SA)

- » High resolution geophysical survey defines large scale anomalies adjacent to historic copper drill hole intercepts.

NEVADA GOLD PROJECTS (USA)

- » Intercepts up to 6.11 g/t gold from first drill hole in maiden drill program on Big Blue gold project, central Nevada, USA.

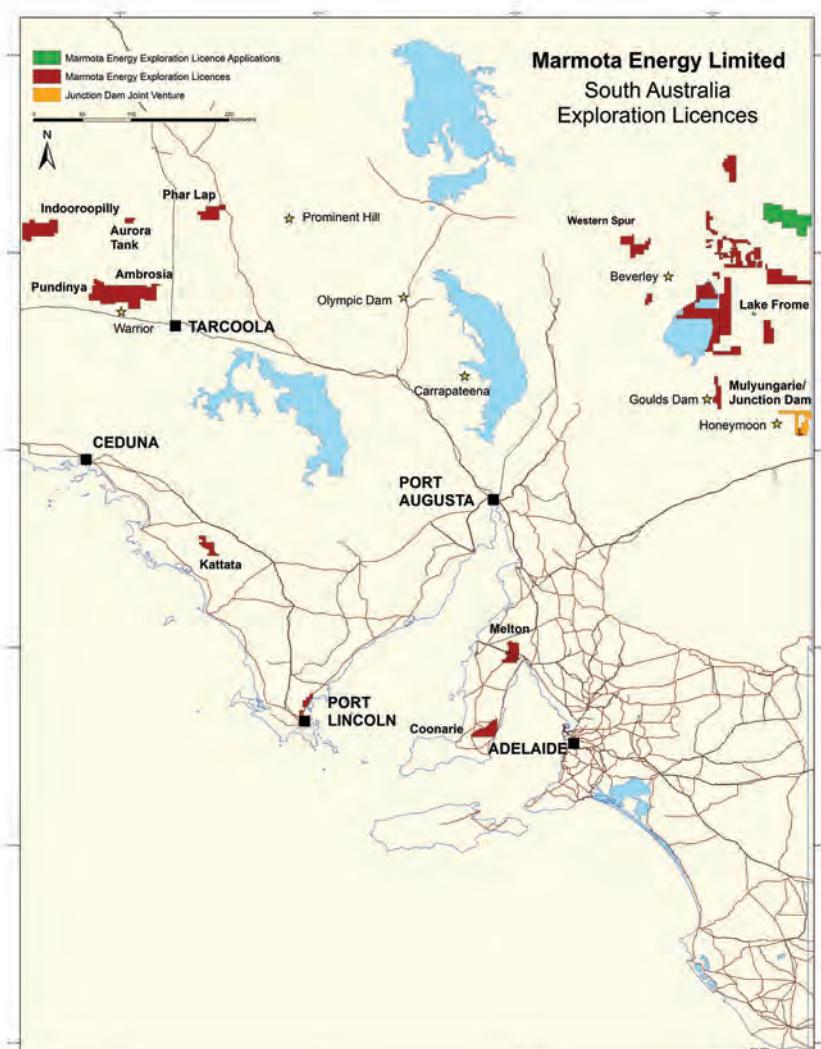

Figure 1. Marmota Energy tenement locations.

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Mr D J Calandro, who is a Member of the Australian Institute of Geoscientists. Mr Calandro is employed full time by the Company as Managing Director and, has a minimum of five years relevant experience in the style of mineralisation and type of deposit under consideration and qualifies as a Competent Person as defined in the 2004 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" Mr Calandro consents to the inclusion of the information in this report in the form and context in which it appears.

JUNCTION DAM URANIUM PROJECT

(MARMOTA 74.5% OF URANIUM UNDER JV AGREEMENT WITH TECK AUSTRALIA PTY LTD (TECK), PLATSEARCH NL AND EAGLEHAWK GEOLOGICAL CONSULTING PTY LTD)

■ Mineralogical assessment completed late in 2010 confirmed that uranium mineralisation within the Saffron prospect at Junction Dam predominantly occurs as coffinite, with uraninite and uranium phosphates (autunite) (Figure 1). This is considered to be very encouraging for the project as this is similar to the mineral assemblages at the nearby Honeymoon in-situ leach uranium mine.

Phase 3 drilling completed during 2011 has intercepted further high grades of uranium mineralisation ranging up to 5538 ppm eU₃O₈ (Table 1). This result is the second highest achieved since exploration commenced on the project in late 2009 where 7551 ppm eU₃O₈ was intercepted.

Downhole gamma readings indicating uranium mineralisation of potential economic significance are being returned from Eyre Formation sediments. This formation hosts the nearby Honeymoon Uranium Mine and the uranium rich Beverley Four Mile project to the north of Junction Dam. New drill holes were completed at the Saffron, Bridget and Yolanda prospects (Figure 3) during the Phase 3 program.

Reconnaissance drilling completed at both the previously untested Bridget and Yolanda prospects defined an additional new 13km long zone of uranium mineralisation (Figure 1). From drilling completed to date Marmota has defined an approximate 15km strike length of uranium mineralisation on the Junction Dam project. It is also expected that these additional new zones of mineralisation will facilitate a significant increase in the exploration target size for Junction Dam.

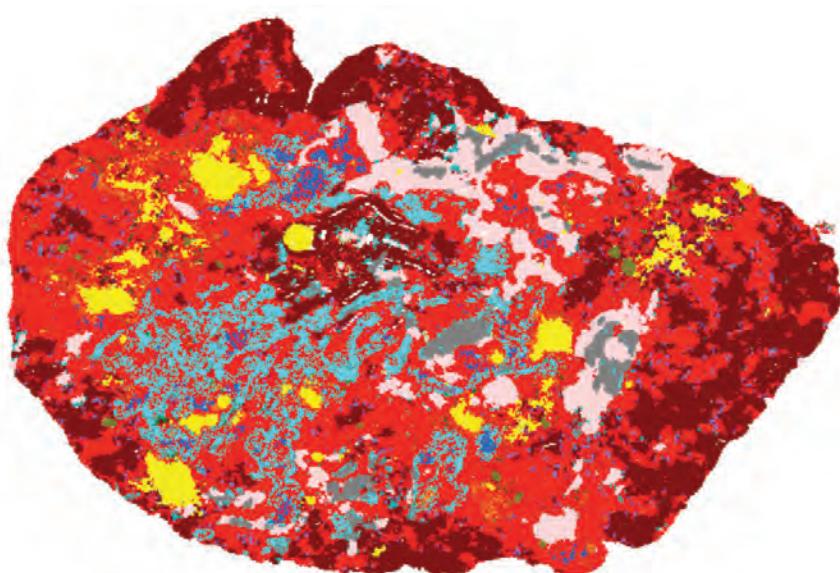

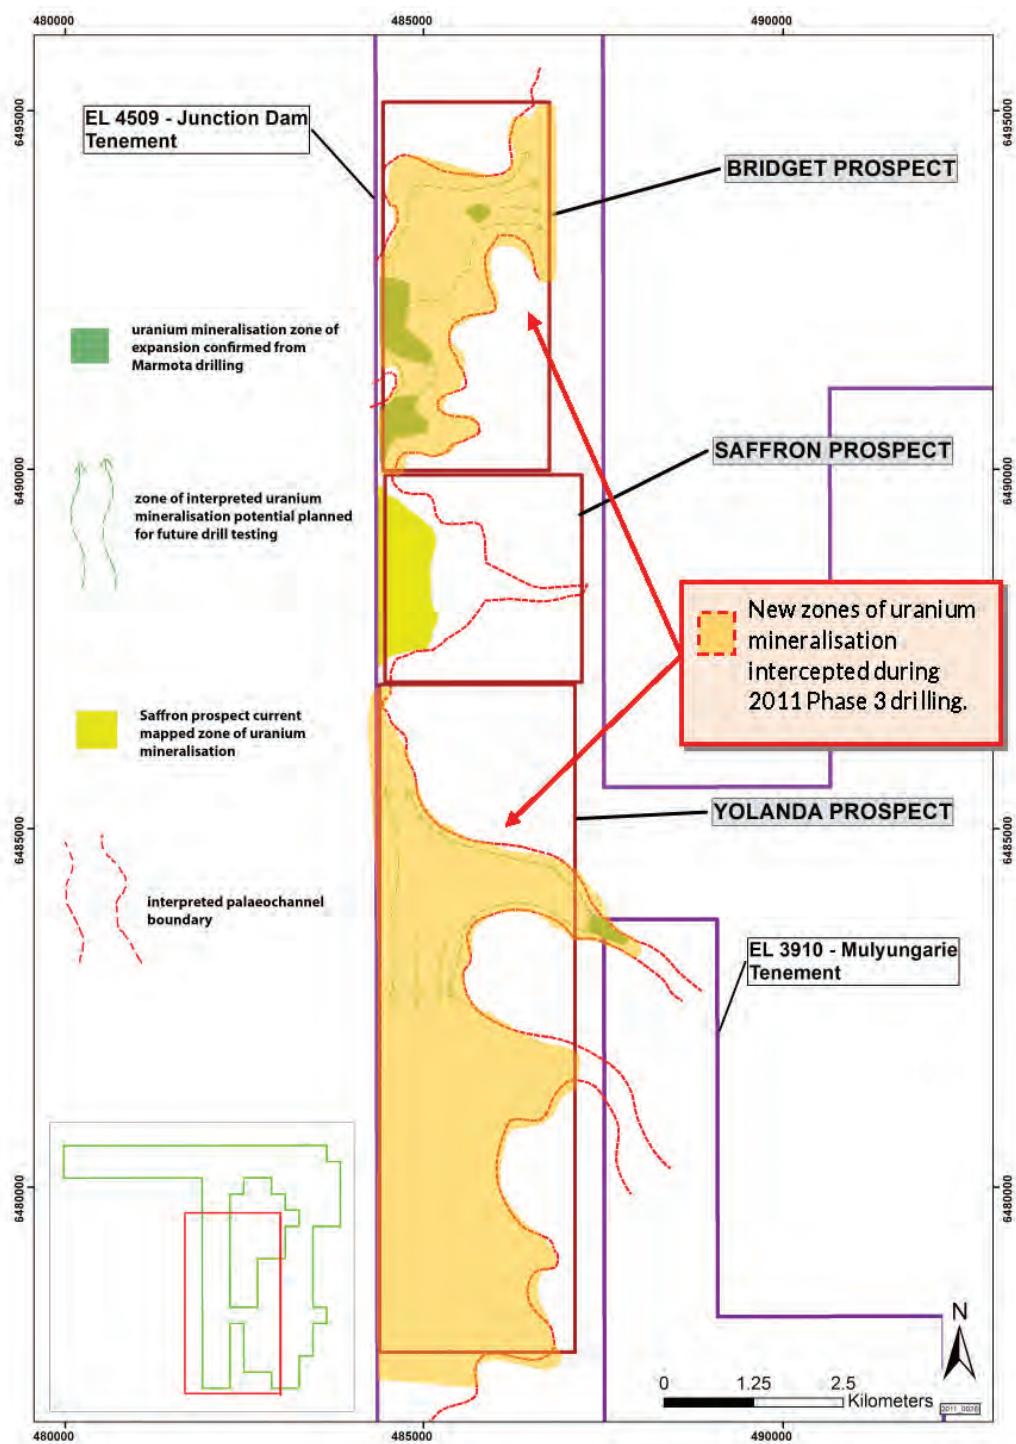

Figure 1. QEMSCAN image from mineralised interval in hole SARM066, particle width approx 0.5mm

Figure 2: Junction Dam project with areas of confirmed mineralisation highlighted. New zone of mineralisation highlighted on the Bridget prospect open in all directions. Third zone of uranium potential highlighted on the Yolanda prospect for future drill testing.

JUNCTION DAM URANIUM PROJECT (CONT.)

(MARMOTA 74.5% OF URANIUM UNDER JV AGREEMENT WITH TECK AUSTRALIA PTY LTD (TECK), PLATSEARCH NL AND EAGLEHAWK GEOLOGICAL CONSULTING PTY LTD)

- The presence of good mineralisation within a significant strike length open in all directions offers substantial expansion potential to the existing 2km long Saffron prospect immediately adjoining to the south. Marmota is delighted with these new results which add significantly to the zones of uranium mineralisation within the Yarramba Palaeochannel on the project.

*Equivalent grades (eU_3O_8) from Borehole Wireline Pty Ltd gamma probe 3018, calibrated at Adelaide Test Pits. Dead time $5.95913e - 6$, k factor $2.35474e - 5$, 108mm hole, water filled.

Table 1: Down hole gamma readings from continued drill testing of the Saffron and Bridget prospects in Phase 3 drilling. The widths shown are true widths.

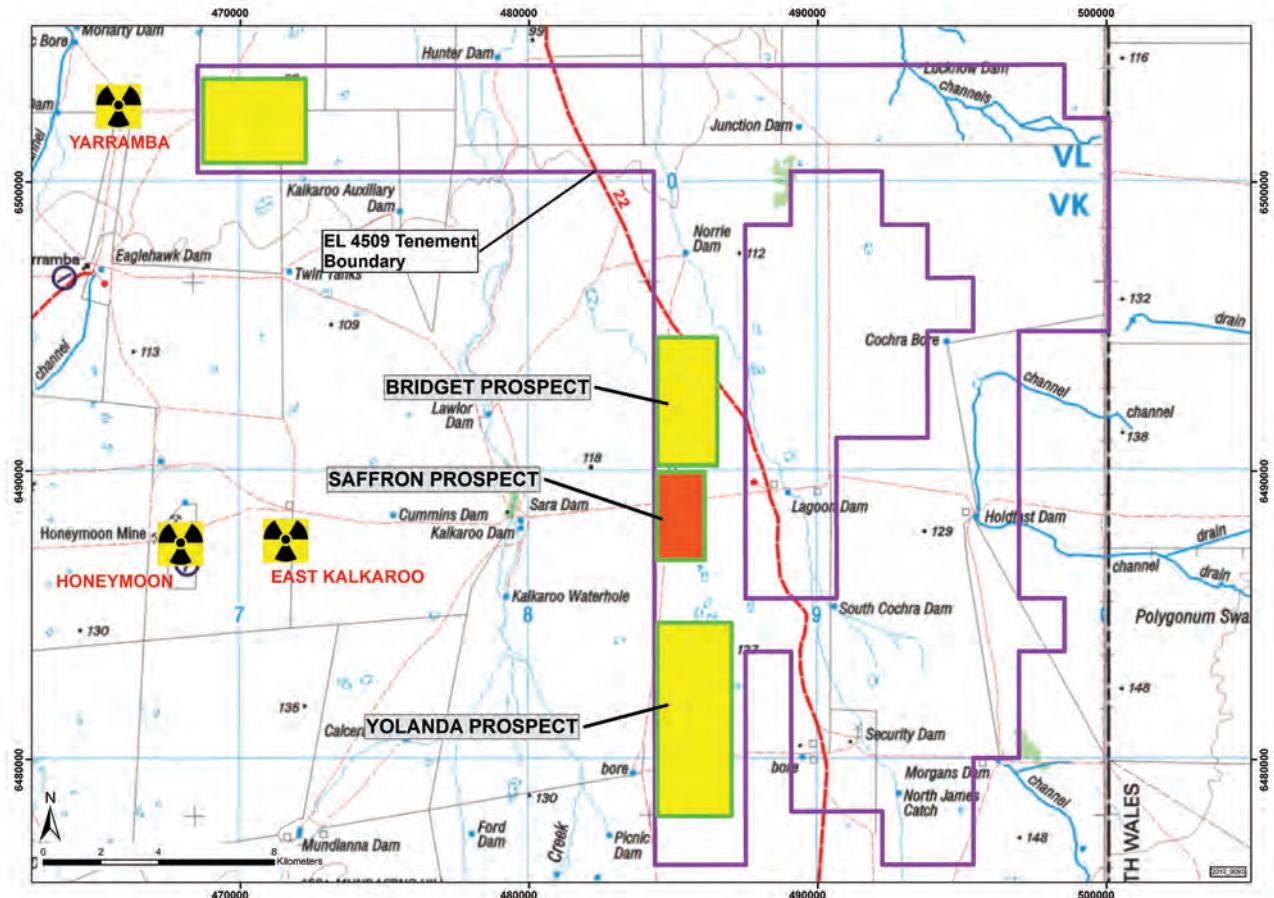

Figure 3. Junction Dam location map.

Other target areas of high potential planned to be tested in phase 3.

■ **Drilling of the Yolanda prospect to the south, near to where uranium mineralisation was intercepted late in 2008, is also planned later in the program (Figure 2). Marmota believes that further uranium will be intercepted in the main part of the Yarramba Palaeochannel (highlighted by dashed line) where current data coverage indicates an environment favorable for uranium mineralisation.**

Marmota has a 74.5% interest in the uranium rights on this highly prospective project. The Company is set to earn an additional interest for the uranium rights arising from expenditure on 2011 exploration and drilling.

Three additional target areas have been identified on the Junction Dam project that Marmota considers to be as prospective as the Saffron prospect (Figure 1). Preliminary drill testing of the additional target zones was completed during Phase 3. Mineralisation was intercepted along a 15km strike length.

Marmota will assess all results achieved from the Phase 1, 2 and 3 drilling programs for its suitability to outline a potential maiden Inferred Resource at the Saffron prospect over the coming months. From the results achieved to date, Marmota believes there is significant potential for further extension to the Saffron prospect and the development of additional zones of uranium on Junction Dam.

WESTERN SPUR IRON ORE PROJECT

■ Good grades were returned from assay of consecutive rock chip sampling programs completed at Western Spur (EL 4528) during the March quarter.

Western Spur is located approximately 60km north west of Lake Frome in the north east of South Australia covering approximately 393 square kilometres. The project is adjacent to Marmota's significant tenement position in the uranium rich Frome Embayment.

Western Spur is considered to be prospective for both uranium and base metals.

Grades ranging up to **58.94% Fe**, and **28.07% Mn** (Table 2) were returned from samples covering a number of outcrops. Samples have now been obtained from outcropping units at locations 1, 4 and 6 (Figure 4a). Outcrop at location 4 has a continuous strike length of approximately three kilometres.

Figure 4: EL 4528 locations (red areas) with Western Spur iron discovery area circled in yellow.

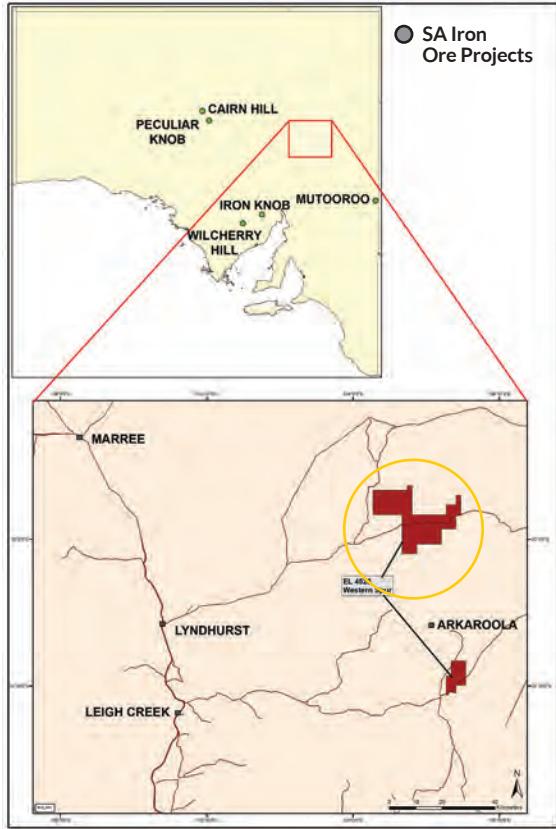

Figure 4a: Google Earth image of EL 4528 with outcrop locations circled in red.

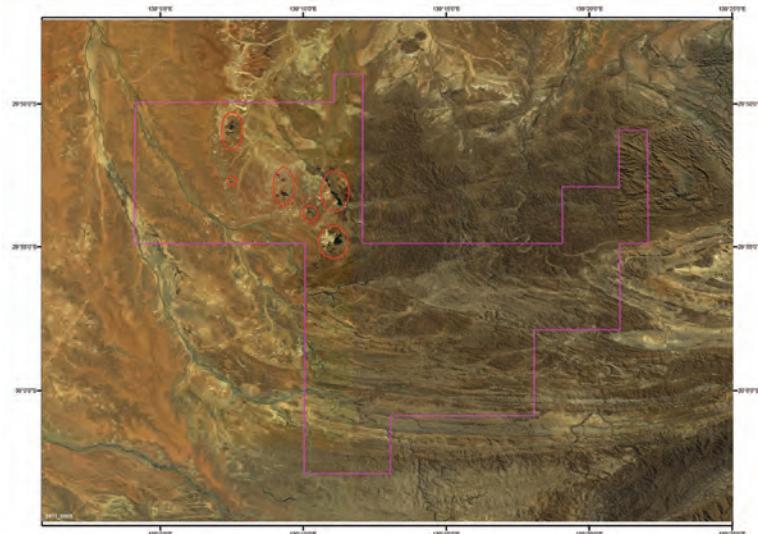

Figure 5: Visible iron outcrop sample site.

WESTERN SPUR IRON ORE PROJECT (CONT.)

Figure 6a: Example of goethite/haematite iron mineralisation at Western Spur

Figure 6b: Example of massive haematite sample from Western Spur

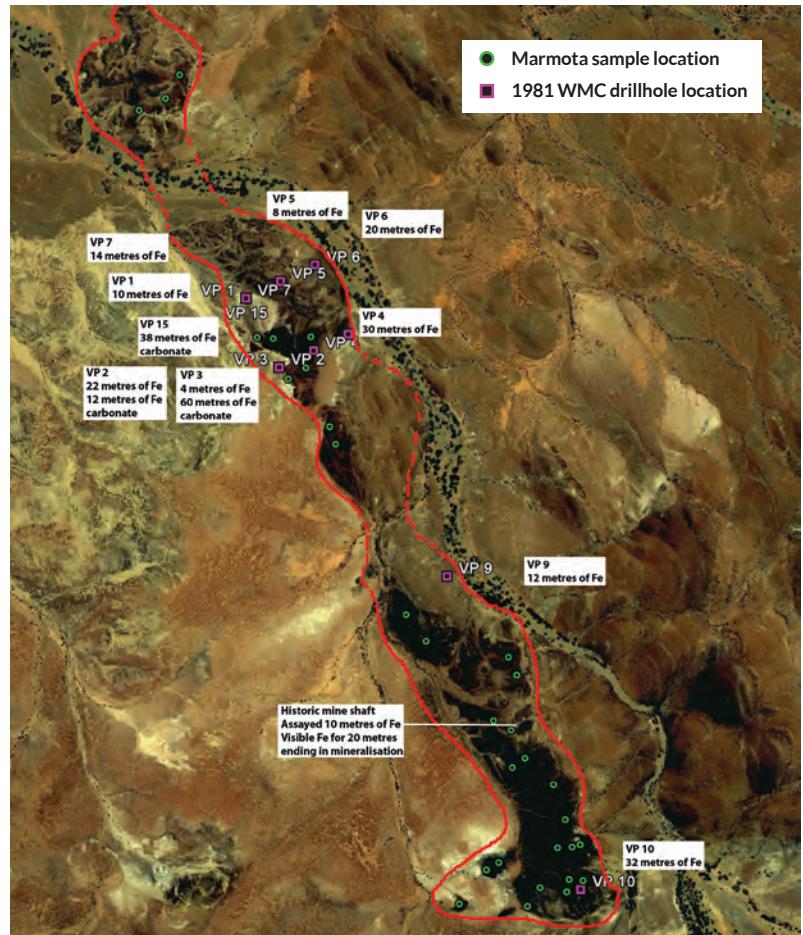

■ During previously completed sampling programs by Marmota, two mine shafts were discovered, with visible iron mineralisation extending to approximately 25 metres in depth.

Sampling of the walls of one mine shaft was completed. Ten samples were acquired at 1 metre intervals down shaft to a depth of approximately 10 metres. Only one shaft was sampled due to difficult conditions encountered, with sampling of the second shaft to be attempted at a later date. Grades ranging up to 55.45% Fe, were returned from ten samples collected from the walls of the mine shaft which was measured to have a depth of 20 metres (Table 3).

The sampled mine shaft contained iron mineralisation in the form of goethite and massive haematite (Figure 6a and 6b). The 20 metre shaft was observed to end in visible iron mineralisation with visible outcrop located approximately 8 metres above the shaft entrance confirming the massive nature of the mineralisation.

The grades of iron encountered from sampling the mine shaft walls are considered very good. The levels of deleterious factors (aluminium, silica, phosphorus and loss of ignition) are comparable to those in commercial iron ore operations.

Figure 7: Zoom of 3km long outcrop with Marmota outcrop sampling locations (yellow circle) and WMC drilling completed in 1981 (yellow square).

The project area has good access to road infrastructure and is less than 15km from the Strzelecki Track considered a major arterial road servicing gas fields further to the north. Potential mineralised outcrops occur in gently undulating terrain facilitating good access for exploration.

The initial results from Western Spur have demonstrated very good iron/manganese exploration potential for the project.

Table 3: Table of assay results from mine shaft sampling program located at 324900E and 6692500N, Zone 54.

MELTON COPPER PROJECT

(MARMOTA 50% UNDER MELTON JV AGREEMENT WITH MONAX MINING LIMITED)

■ Marmota Energy Limited and its joint venture partner Monax Mining Limited completed Phase 2 drill testing of the Miranda target at the Melton copper-gold project in South Australia in May 2011. Four diamond drill holes designed to follow up on results achieved during the 2010 Phase 1 program were completed at the Miranda target, located at the southern end of the project area (Figure 8).

The Melton project is located on the northern Yorke Peninsula and contains a 15km section of the highly prospective Pine Point Fault Zone (PPFZ).

Phase 1 drilling completed early in 2010 tested for copper in the first three of five large scale untested targets identified on the project. Two drill holes including the first drill hole of the Phase 1 program intersected broad zones of low grade copper with best grades achieved of up to 0.49% Cu in the Miranda target.

Rex Minerals at the nearby Hillside deposit has defined an Inferred and Indicated resource of 217Mt @ 0.7% Cu and 0.2 g/t gold.

Data from the Phase 1 program, particularly structural data collected from drill core, has contributed significantly to providing a clearer understanding of the Miranda target where copper mineralisation was intersected. Drill holes in the 4km long Miranda target intersected copper mineralisation associated with an amphibole-magnetite-pyrite-chalcopyrite alteration system.

Sulphide mineralisation was observed in drill core from Phase 2 which continues to reinforce the prospectivity of the project area (Figure 9). All four Phase 2 drill holes intersected copper mineralisation in addition to the Phase 1 drill holes that intersected broad zones of low grade copper at the Miranda target in 2010. The drill hole intercepts across both Phases of drilling at the Miranda target define an

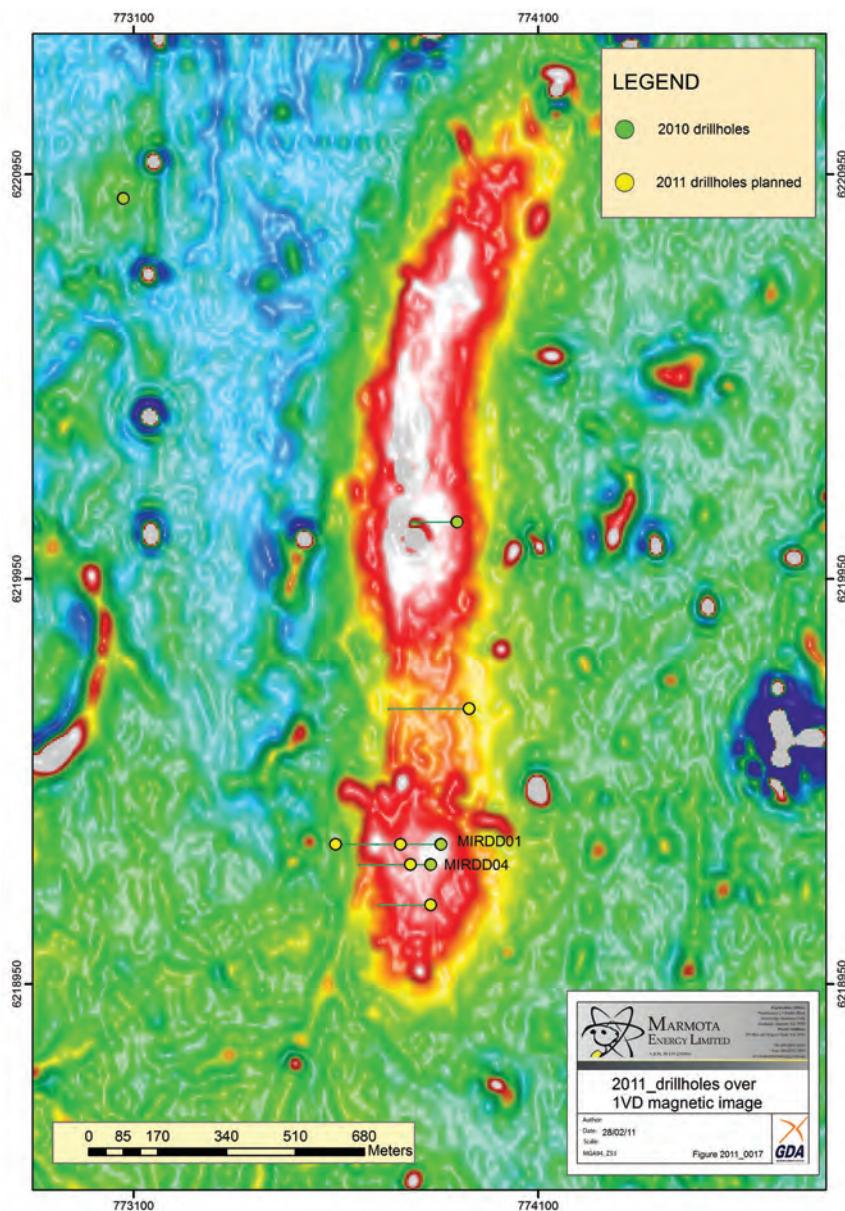

Figure 8: Miranda magnetic anomaly with 2011 Phase 2 drill hole locations. (inset).

interpreted zone of copper mineralisation that extends for at least 1.3km open to the north. Assay results from Miranda (Table 4) have been interpreted to have intersected a broad zone of copper mineralisation, containing a potential high grade zone encompassed in a broad lower grade halo. The mineralisation appears to be shallowing toward the northern end of the target area.

Hole	East	North	From (m)	Interval (m)	Cu (%)	Au (g/t)	Ag (g/t)
MIRDD01 (Phase 1)	773860	6219295	451	21	0.11	-	1.02
MIRDD04 (Phase 1)	773835	6219245	432	4	0.15	-	1.00
			463	4	0.13	-	0.90
			487	3	0.26	-	3.56
MIRDD05 (Phase 2)	733832	6219146	438	1	0.21	-	0.40
MIRDD06 (Phase 2)	773762	6219294	373	3	0.25	-	-
			466	12	0.23	-	-
including				1	1.20	-	-
and				1	0.65	-	-
MIRDD08 (Phase 2)	773930	6219630	461	9	1.03	-	-
including				1	2.25	0.46	112.10
and				1	1.25	-	-
and				6	0.61*	-	-

*Interval widths are downhole widths. Individual samples include both 1m and *3m composite samples. Cu determined by multi-acid digest including Hydrofluoric, Nitric, Perchloric and Hydrochloric acids in Teflon Tubes. Analysed by Inductively Coupled Plasma Optical (Atomic) Emission Spectrometry. Ag determined by Inductively Coupled Plasma Mass Spectrometry. Au determined by Lead collection fire assay and analysed by Flame Atomic Absorption Spectrometry.

Table 4: (above) Significant results from Phase 1 and 2 drilling of the Miranda target include:

Figure 9a: (left) Example of copper mineralisation (chalcopyrite) observed in Miranda drill hole MIRDD01 during 2010 Phase 1 drilling.

Figure 9b: (right) Example of copper mineralisation (chalcopyrite) observed in Miranda drill hole MIRDD06 during 2011 Phase 2 drilling.

WEST MELTON COPPER PROJECT

(100% MARMOTA ENERGY)

■ Marmota has increased its tenement footprint on Yorke Peninsula, by obtaining a new tenement, West Melton, (EL 4648) immediately adjoining the Melton project which is 100% owned by Marmota (Figure 10).

The tenement covers interpreted large scale shallow anomalies. Large-scale north westerly trending magnetic anomalies in the magnetic data extend from the Melton project westwards onto the new exploration licence area. The potential strike length of the most significant anomaly is approximately 10 kilometres.

The new high resolution magnetic data has greatly improved the detail of anomalies outlined previously by the regional scale data, particularly the definition of regional geological structures in the northern part of the tenement (Figure 10). This large north easterly feature is known to host copper mineralisation elsewhere along its strike length immediately to the west of EL 4648, drilled by North Broken Hill in 1978.

The large scale targets identified from the data are in a geological setting that is similar to that at the Rex Minerals Hillside Project, where an Inferred and Indicated resource of 217Mt @ 0.7% Cu and 0.2 g/t gold has been defined.

Marmota plans to follow up these promising exploration results with the acquisition of infill high resolution ground gravity, magnetic and soil surveys over selected target areas.

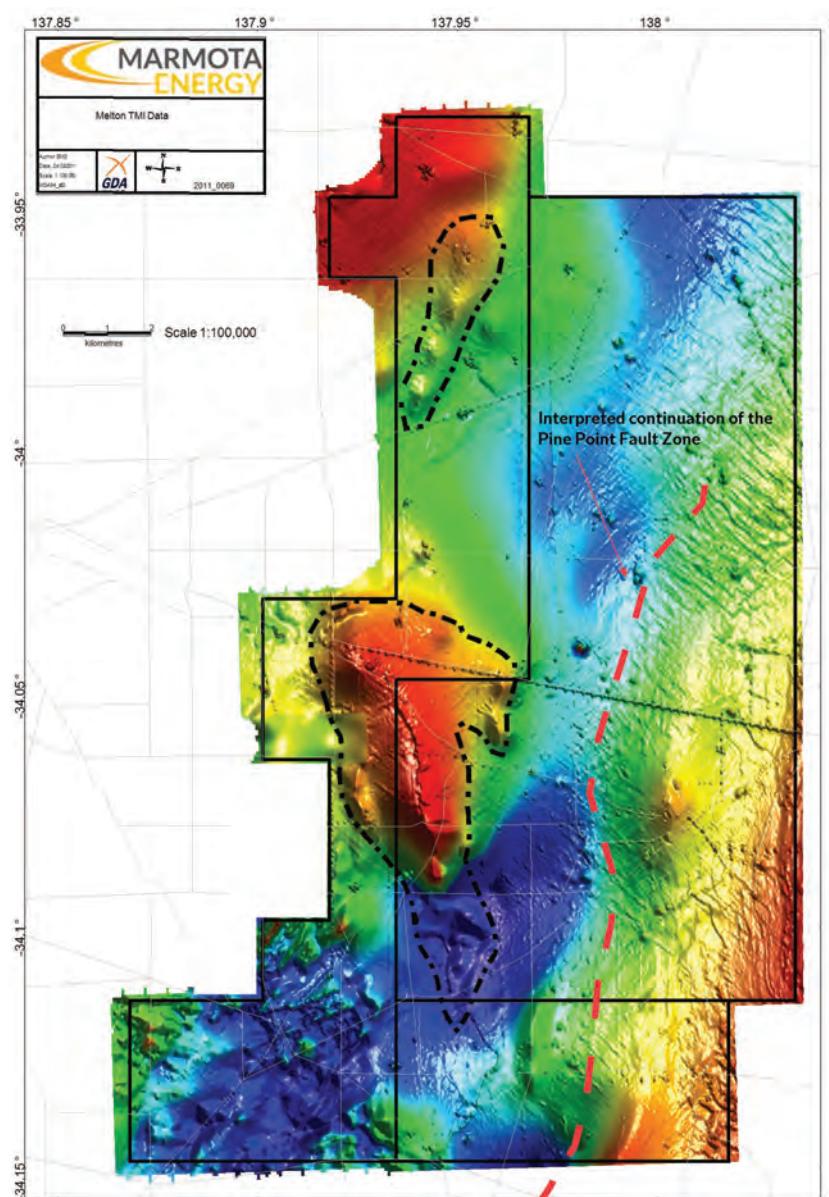

Figure 10: New exploration licence (EL 4648) immediately adjoining the Melton tenement. Large magnetic anomalies trending to the north-west contain targets 4 and 5 planned to be tested in future phases of drilling.

BIG BLUE GOLD PROJECT NEVADA USA

(RAMELIUS RESOURCES (ASX: RMS) AND MARMOTA ENERGY LIMITED (ASX: MEU) EARNING 70%)

■ Maiden drill testing of the Big Blue gold project in Nevada intersected gold mineralisation, further enhancing the potential of the project. On the Big Blue gold project Marmota can earn 40% of Ramelius' equity in the project through incremental contributions over four years. Ramelius will have the right to earn 70% in the Big Blue gold project.

The Big Blue project located in central Nevada represents a largely unexplored very shallow to exposed sequence of gold-bearing carbonate rich sedimentary rocks. This sequence is highly prospective for structurally controlled Carlin-Type, sediment hosted gold deposits.

A small reconnaissance drill program commenced ahead of schedule in March of 2011 over the West Cottonwood anomaly at Big Blue. Four drill holes totalling 745.3m were drilled with assay results returned from the first hole of the program (Table 4). Hole BBR11-01 returned 9.15 metres at 1.63 g/t Au which includes 1.5 metres of 6.11 g/t Au. The results are considered encouraging, supporting the Carlin-Style gold mineralisation model for the project.

The drill program was hampered by unexpected intermittent snow drifts throughout March plus broken ground conditions, forcing three holes (BBR11-02 to 04) to be postponed. The program has recommenced in September with more favourable weather conditions.

Figure 11: Angel Wing and Big Blue project location map

Marmota and Ramelius remain committed to the Big Blue and Angel Wing gold projects with the current Australian dollar exchange rates offering good value for money for exploration in the USA.

Assay results from BBR11-01 to date are presented in Table 5 below.

Table 5: Significant (>0.5g/t Au) drill hole intersections from Big Blue

Hole ID	Easting	Northing	Az/Dip	F/Depth	From (m)	To (m)	Interval (m)	g/t Au
BBR11-01	506407	4387093	305/60	341.4	3.05	12.20	9.15	1.63
				including	4.57	6.09	1.52	6.11
					21.30	24.40	3.10	0.65
BBR11-02	506514	4387004	300/60	144.8				ABN
BBR11-03	506509	4386998	305/65	83.8				ABN
BBR11-04	506517	4387017	310/60	175.3		Results	Awaited	ABN

Reported significant gold assay intersections (using a 0.5g/t Au lower cut) calculated over a minimum down hole interval of 1m at plus 0.5g/t gold and may contain up to 2m internal dilution. ABN denotes hole was abandoned. NSR denotes no significant result. Gold determination is by Fire Assay using a 30gram charge and AAS finish, with a lower limit of detection of 0.01g/t Au.

FORWARD PROGRAM

■ Drilling continued into the third quarter of 2011 at the Junction Dam uranium project. Ground EM surveys are planned over the Yolanda target area on the project. This data is expected to assist in defining the continuation of the extent of the Yarramba palaeochannel that hosts the Saffron and Bridget target areas to the north. These two target areas combined represent a zone of mineralisation with an approximate 6km strike length.

Results from all phases of drilling will be assessed and modelled for suitability to calculate an inferred resource at the Saffron prospect.

Final high resolution magnetic data has been delivered for the West Melton project on the Yorke Peninsula. The data will be modelled with further ground surveys planned to augment this data for target assessment and drill testing.

Further sampling is planned at the Western Spur iron ore project in preparation for the acquisition of high resolution geophysics in 2012.

TIMING	EL	PROJECT	PROJECT
Aug – Sept 2011		Angel Wing gold project - Nevada USA	Drill testing of vein hosted gold targets
Aug – Sept 2011	4509	Junction Dam	Sonic drilling at Saffron prospect
Oct – Nov 2011	4509	Junction Dam	Ground EM surveys over the Yolanda prospect
Nov 2011	4528	Western Spur	High resolution ground gravity survey
Nov 2011 - Feb 2012	4509	Junction Dam	Phase 1 works to progress Saffron prospect to 'Retention Lease' in preparation for flow testing
Nov 2011	4648	West Melton	Infill ground geophysical surveys, drill target assessment
Feb 2012	4648	West Melton	Maiden drill testing of copper-gold targets
Mar 2012	4509	Junction Dam	Drill testing at Bridget, and Yolanda prospects

CORPORATE GOVERNANCE STATEMENT

CORPORATE GOVERNANCE STATEMENT

PRINCIPLE 1

LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

■ The following statement sets out a summary of the Company's corporate governance practices that were in place during the financial year and how those practices relate to the revised Corporate Governance Principles and Recommendations issued by the Australian Stock Exchange Corporate Governance Council ("ASX Recommendations").

These recommendations are not intended to be prescriptions to be followed by all ASX listed companies, but rather guidelines designed to produce an effective, quality and integrity outcome. The Corporate Governance Council has recognised that a "one size fits all" approach to Corporate Governance is not required. Instead, it states aspirations of best practice for optimising corporate performance and accountability in the interests of shareholders and the broader economy. A company may consider that a recommendation is inappropriate to its particular circumstances and has flexibility not to adopt it and explain why.

In ensuring the highest standard of ethical behaviour and accountability, the Board has included in its corporate governance policies those matters contained in the ASX Recommendations where applicable. However, the Board also recognises that full adoption of the above ASX Recommendations may not be practical nor provide the optimal result given the particular circumstances and structure of the Company. The Board is, nevertheless, committed to ensuring that appropriate Corporate Governance practices are in place for the proper direction and management of the Company. This statement outlines the main Corporate Governance practices of the Company disclosed under the ASX Recommendations, including those that comply with best practice and which unless otherwise disclosed, were in place during the whole of the financial year ended 30 June 2011.

RECOMMENDATION 1.1 – RECOMMENDATION FOLLOWED

The Board is governed by the Corporations Act 2001, ASX Listing Rules and a formal constitution adopted by the company in 2004.

The role of the Board is to provide leadership and direction to management and to agree with management the aims, strategies and policies of the Company for the protection and enhancement of long-term shareholder value.

The Board takes responsibility for the overall Corporate Governance of the Company including its strategic direction, management goal setting and monitoring, internal control, risk management and financial reporting.

The Board has an established framework for the management of the entity including a system of internal control, a business risk management process and appropriate ethical standards. In fulfilling its responsibilities, the Board is supported by an Audit and Corporate Governance Committee established prior to listing on the ASX, to deal with internal control, ethical standards and financial reporting and a

Remuneration and Nomination Committee to monitor the composition of the Board and review the compensation of the Company's Executive Directors and senior management with the overall objective of motivating and appropriately rewarding performance.

The Board appoints a Managing Director responsible for the day to day management of the Company including management of financial, physical and human resources, development and implementation of risk management, internal control and regulatory compliance policies and procedures, recommending strategic direction and planning for the operations of the business and the provision of relevant information to the Board.

RECOMMENDATION 1.2 AND 1.3 – RECOMMENDATIONS FOLLOWED

The Remuneration and Nomination Committee meets at least annually and the recommendations are made in line with the Company's present circumstances and goals to ensure maximum shareholder benefits from the attraction and retention of a high quality Board and senior management team. The Remuneration and Nomination Committee met once during the financial year to review the performance of and recommend appropriate remuneration for Executive Directors and senior management including any equity participation by such Executive Directors and senior management. The Board evaluates the performance of the Managing Director and Company Secretary on a regular basis and encourages continuing professional development.

PRINCIPLE 2

STRUCTURE THE BOARD TO ADD VALUE

RECOMMENDATION 2.1 – RECOMMENDATION NOT FOLLOWED

The composition of the Board consists of five directors of whom three, including the Chairman, are non-executives. Messrs Kennedy, Nelson and Davis are not Independent Directors as a result of their role as Directors of Monax Mining Limited, a substantial shareholder. The Board considers Messrs Kennedy, Nelson and Davis are not Independent only in matters being considered that deal with Monax Mining Limited and they do not participate in the consideration of such matters.

The Board is of the opinion that the current structure of the Board is appropriate given the size and nature of the Company. Whilst this is at variance to the ASX Recommendations that the majority composition of the Board comprise Independent Directors, the Board considers that all Directors bring an independent judgement to bear on Board decisions and that the Board's expertise and experience adds considerable value to the Company. Matters that concern business dealings with Monax Mining Limited are discussed and considered by Independent Alternate Directors.

RECOMMENDATION 2.2 – RECOMMENDATION NOT FOLLOWED

The Chairman, Mr Kennedy is not an Independent Director due to his role as an officer of Monax Mining Limited, a substantial shareholder.

The Board considers that all Directors bring an independent judgement to bear on Board decisions and that the Chairman's expertise and experience adds considerable value to the Company.

RECOMMENDATION 2.3 – RECOMMENDATION FOLLOWED

Mr Kennedy's role as Chairman of the Board is separate from that of the Managing Director who is responsible for the day to day management of the Company and is in compliance with the ASX Recommendation that these roles not be exercised by the same individual.

RECOMMENDATION 2.4 – RECOMMENDATION FOLLOWED

During the year, the Company has established a Remuneration and Nomination Committee which currently consists of two non-executive Board directors, Messrs Nelson and Kennedy. Mr Nelson acts as Chairman of this committee (refer also to Principle 8 below).

RECOMMENDATION 2.5 – RECOMMENDATION NOT FOLLOWED

The Board recognises that as a result of the Company's size and the stage of the entity's life as a publicly listed junior exploration company, the assessment of the Board's overall performance and its own succession plan is conducted on an informal basis. Whilst this is at variance with the ASX Recommendations, for the financial year ended June 2011, the Directors consider that at the date of this report an appropriate and adequate process for the evaluation of Directors is in place.

RECOMMENDATION 2.6 – RECOMMENDATION FOLLOWED

The names of the directors of the Company and terms in office at the date of this Statement together with their skills, experience, expertise and financial interests in the Company are set out in the Directors' Report section of this report.

The Company's constitution specifies the number of directors must be at least three and at most ten. The Board may at any time appoint a director to fill a casual vacancy. Directors appointed by the Board are subject to election by shareholders at the following annual general meeting and thereafter directors (other than the Managing Director) are subject to re-election at least every three years. The tenure for executive directors is linked to their holding of executive office.

Formal deeds were entered into by the Company with directors whereby all directors, with the consent of the Chairman, are entitled to take such legal advice as they require at any time and from time to time on any matter concerning or in relation to their rights, duties and obligations as directors in relation to the affairs of the Company.

An assessment of the Board's overall performance and its own succession plan is conducted on an informal basis and was completed during the previous financial year.

PRINCIPLE 3

PROMOTE ETHICAL AND RESPONSIBLE DECISION MAKING

RECOMMENDATION 3.1 – RECOMMENDATION FOLLOWED

The Company requires all its directors and employees to abide by the standards of behaviour and business ethics in accordance with the law. In discharging their duties, Directors of the Company are required to:

- » act in good faith and in the best interests of the Company;
- » exercise the care and diligence that a reasonable person in that role would exercise;
- » exercise their powers in good faith for a proper purpose and in the best interests of the Company;
- » not improperly use their position or information obtained through their position to gain a personal advantage or for the advantage of another person to the detriment of the Company;
- » disclose material personal interests and avoid actual or potential conflicts of interests;
- » keep themselves informed of relevant Company matters;
- » keep confidential the business of all directors meetings; and
- » observe and support the Board's Corporate Governance practices and procedures.

All directors have signed deeds with the Company which require them to comply with all the obligations of a director under the Corporations Act 2001. Directors also are required to provide the Company with details of all securities registered in the director's name or an entity in which the director has a relevant interest within the meaning of section 9 of the Corporations Act 2001 and details of all contracts, other than contracts to which the Company is a party to which the director is a party or under which the director is entitled to a benefit, and that confer a right to call for or deliver shares in the Company and the nature of the director's interest under the contract.

Directors are required to disclose to the Board any material contract in which they may have an interest. In accordance with Section 195 of the Corporations Act 2001, a director having a material personal interest in any matter to be dealt with by the Board, will not be present when that matter is considered by the Board and will not vote on that matter, subject to the discretion of the Board.

RECOMMENDATION 3.2 – RECOMMENDATION FOLLOWED

Directors, officers and employees are not permitted to trade in securities of the Company and have an obligation not to inform at any time whilst in possession of price sensitive information not readily available to the market. Section 1043A of the Corporations Act 2001 also prohibits the acquisition and disposal of securities where a person possesses information that is not generally available and which may reasonably be expected to have a material effect on the price of the securities if the information was generally available. A securities trading policy has been established and all employees and Directors are obliged to comply.

RECOMMENDATION 3.3 – RECOMMENDATION FOLLOWED

A summary of the Company's Code of Conduct and Share Trading Policy can be found at www.marmotaenergy.com.au.

PRINCIPLE 4

SAFEGUARD INTEGRITY IN FINANCIAL REPORTING

RECOMMENDATION 4.1 – RECOMMENDATION FOLLOWED

Marmota was not a Company required by ASX Listing Rule 12.7 to have an Audit Committee during the year although it is an ASX Recommendation. Notwithstanding the Listing Rule requirement, an Audit and Corporate Governance Committee was set up prior to the Company's ASX listing in 2007 to oversee corporate governance, internal controls, ethical standards, financial reporting, and external accounting and compliance procedures. The main responsibilities of the Audit and Corporate Governance Committee include:

- » reviewing, assessing and making recommendations to the Board on the annual and half year financial reports;
- » overseeing establishment, maintenance and reviewing the effectiveness of the Company's internal controls and ensuring efficacy and efficiency of operations, reliability of financial reporting and compliance with applicable Accounting Standards and ASX Listing Rules;
- » liaising with and reviewing reports of the external auditor; and
- » reviewing the performance and independence of the external auditor and where necessary making recommendations for appointment and removal of the Company's auditor.

RECOMMENDATION 4.2 – RECOMMENDATION NOT FOLLOWED

The Audit and Corporate Governance Committee currently consists of two non-executive Board directors, Messrs Davis and Kennedy, and is chaired by Mr Davis. Mr Kennedy is a qualified Chartered Accountant.

The Board believes that given the size of the Company and the stage of the entity's life as a publicly listed junior exploration company and the current board structure the establishment of an audit committee in line with ASX Recommendation 4.2 cannot be justified by the perceived benefits of doing so. The existing composition of the Audit and Corporate Governance Committee is such that review and authorisation of the integrity of the Company's financial reporting and the independence of the external auditor is via the exercise of independent and informed judgement

RECOMMENDATION 4.3 – RECOMMENDATION FOLLOWED

The Board has adopted a formal Charter for the Audit and Corporate Governance Committee. The Charter details the Audit Committee's role and responsibilities, composition and membership requirement.

RECOMMENDATION 4.4 – RECOMMENDATION FOLLOWED

Mr Kennedy is a qualified Chartered Accountant. Details of these Directors' qualifications and attendance at meetings are set out in the Directors' Report section of this report.

The Committee meets at least three times per annum and reports to the Board. The Managing Director, Company Secretary and external auditor may, by invitation, attend meetings at the discretion of the Committee.

PRINCIPLE 5

MAKE TIMELY AND BALANCED DISCLOSURE

RECOMMENDATION 5.1 AND 5.2 – RECOMMENDATIONS NOT FOLLOWED

The Company operates under the continuous disclosure requirements of the ASX Listing Rules and ensures that all information which may be expected to affect the value of the Company's securities or influence investment decisions is released to the market in order that all investors have equal and timely access to material information concerning the Company. The information is made publicly available on the Company's website following release to the ASX.

Due to the size of the Company and the stage of life of the entity as a publicly listed junior exploration company, the Board does not believe a formal policy for continuous disclosure is required. However, a summary describing how the Company will ensure its compliance with continuous disclosure requirements is posted on the Company's website www.marmotaenergy.com.au.

PRINCIPLE 6

RESPECT THE RIGHTS OF SHAREHOLDERS

RECOMMENDATION 6.1 AND 6.2 – RECOMMENDATIONS NOT FOLLOWED

The Board aims to ensure that shareholders are informed of all major developments affecting the Company's state of affairs. In accordance with the ASX Recommendations, information is communicated to shareholders as follows:

- » the annual financial report which includes relevant information about the operations of the Company during the year, changes in the state of affairs of the entity and details of future developments, in addition to the other disclosures required by the Corporations Act 2001;
- » the half yearly financial report lodged with the Australian Stock Exchange and Australian Securities and Investments Commission and sent to all shareholders who request it;
- » notifications relating to any proposed major changes in the Company which may impact on share ownership rights that are submitted to a vote of shareholders;
- » notices of all meetings of shareholders;
- » publicly released documents including full text of notices of meetings and explanatory material made available on the Company's website at www.marmotaenergy.com.au; and
- » disclosure of the Company's Corporate Governance practices and communications strategy on the entity's website.

PRINCIPLE 7

RECOGNISE AND MANAGE RISKS

RECOMMENDATION 7.1, 7.2 & 7.4 – RECOMMENDATIONS NOT FOLLOWED

The Board recognises that there are inherent risks associated with the Company's operations including mineral exploration and mining, environmental, heritage and native title, legal and other operational risks. The Board endeavours to mitigate such risks by continually reviewing the activities of the Company in order to identify key business and operational risks and ensuring that they are appropriately assessed and managed. No formal report in relation to the Company's management of its material business risks is presented to the Board.

Due to the size of the Company and the stage of life of the entity as a publicly listed junior exploration company, and the inherent risks associated with the industry it operates in, the Board does not believe formal policies for oversight and management of risk are required. The Board with the assistance of the Audit and Corporate Governance Committee conducts a formal review of the risk profile of the Company annually and monitors risk informally throughout the year. A summary describing how the Company manages risk by procedures established at Board and executive level can be found posted on the Company's website www.marmotaenergy.com.au.

RECOMMENDATION 7.3 – RECOMMENDATION FOLLOWED

In accordance with ASX Recommendation 7.3 the Chief Executive Officer and Chief Financial Officer are required to provide assurances that the written declarations under s295A of the Corporations Act are founded on a sound framework of risk management and internal control and that the framework is operating effectively in all material respects in relation to financial reporting risks. Both the Chief Executive Officer and Chief Financial Officer provide said assurances at the time the s295A declarations are provided to the Board.

PRINCIPLE 8

REMUNERATE FAIRLY AND RESPONSIBLY

RECOMMENDATION 8.1 – RECOMMENDATION FOLLOWED

The Company established a Remuneration and Nomination Committee to monitor the composition of the Board and review the compensation of the Company's Executive Directors and senior management with the overall objective of motivating and appropriately rewarding performance. The Committee makes recommendations to the Board who is ultimately responsible for the Company's remuneration policy.

The Remuneration and Nomination Committee currently consists of two Non-executive Directors, Messrs Nelson and Kennedy. Mr Nelson acts as Chairman of this committee. Details of the number of and attendance at the Committee meetings can be found in the Directors' Report.

The Board believes that given the size of the Company and the stage of the entity's life as a publicly listed junior exploration company that the cost of establishing a formal remuneration and nomination committee charter cannot be justified by the perceived benefits of doing so.

RECOMMENDATION 8.2 & 8.3 – RECOMMENDATIONS FOLLOWED

In accordance with ASX Recommendation 8.2 the Company's remuneration practices are set out as follows.

The Company's Constitution specifies that the total amount of remuneration of non-executive directors shall be fixed from time to time by a general meeting. The current maximum aggregate remuneration of non-executive directors has been set at \$400,000 per annum. Directors may apportion any amount up to this maximum amount amongst the non-executive directors as they determine. Directors are also entitled to be paid reasonable travelling, accommodation and other expenses incurred in performing their duties as directors.

Non-executive director remuneration is by way of fees and statutory superannuation contributions. Non-executive directors do not participate in schemes designed for remuneration of executives nor do they receive options or bonus payments and are not provided with retirement benefits other than salary sacrifice and statutory superannuation.

The remuneration of the Managing Director is determined by the Board on the recommendation of the Remuneration and Nomination Committee as part of the terms and conditions of his employment which are subject to review from time to time. The remuneration of employees is determined by the Managing Director subject to the approval of the Board.

The Company's remuneration structure is based on a number of factors including the particular experience and performance of the individual in meeting key objectives of the Company. The Remuneration and Nomination Committee is responsible for assessing relevant employment market conditions and achieving the overall, long term objective of maximising shareholder benefits, through the retention of high quality personnel.

During the previous financial year, the Company engaged the services of an external remuneration consultant to conduct a review of and benchmark remuneration for Non-executive and Executive Directors and key management personnel. The Remuneration and Nomination Committee conducted an inhouse benchmarking review of executive remuneration during the financial year.

The Company does not presently emphasise payment for results through the provision of cash bonus schemes or other incentive payments based on key performance indicators of Marmota given the nature of the Company's business as a publicly listed mineral exploration entity and the current status of its activities. However the Board may approve the payment of cash bonuses from time to time in order to reward individual executive performance in achieving key objectives as considered appropriate by the Board.

From time to time, the Company may grant retention rights as considered appropriate by the Remuneration and Nomination Committee and the Board, as a long term incentive for Key Management Personnel. These rights are subject to shareholder approval at the Annual General Meeting.

The intention of this remuneration is to facilitate the retention of Key Management Personnel in order that the goals of the business and shareholders can be met. Under the terms of the issue of retention rights, the rights will vest over a period of time, with a proportion of the rights vesting each year.

The Company also has an Employee Share Option Plan approved by shareholders that enables the Board to offer eligible employees options to acquire ordinary fully paid shares in the Company. Under the terms of the Plan, options to acquire ordinary fully paid shares may be offered to the Company's eligible employees at no cost unless otherwise determined by the Board in accordance with the terms and conditions of the Plan. The objective of the Plan is to align the interests of employees and shareholders by providing employees of the Company with the opportunity to participate in the equity of the Company as an incentive to achieve greater success and profitability for the Company and to maximise the long term performance of the Company. The non-executive directors are not eligible to participate in the Plan. Details of options issued to employees during the 2011 financial year together with details of the terms of the Plan are disclosed in the Remuneration Report section of the Directors' Report.

Details of options and retention rights issued to employees during or since the end of the financial year including to the Managing Director are set out in the Remuneration Report section of the Directors' Report.

The employment conditions of the Managing Director and Executive Director are formalised in contracts of employment and may be terminated at any time by mutual agreement or without notice in instances of serious misconduct.

The details of Directors' and Executives' officers' remuneration, superannuation and retirement payments are set out in the Remuneration Report section of the Directors' Report.

GLOSSARY OF TERMS

ALTERATION

Any change in the mineralogic composition of a rock brought about by physical or chemical means.

AMPHIBOLE

A group of common rock-forming minerals that occur most frequently in igneous and metamorphic rocks.

ANOMALY

A departure from the norm usually determined by systematic measurement across an area. In mineral exploration it is generally applied to geochemical or geophysical values above or below the norm.

ARCHAean

An interval of geological time before about 2.5 billion years ago.

BASEMENT

Much older rocks underlying younger rocks. In the Gawler Craton area, the basement is usually the cratonic rocks.

BASIN

A depression often due to subsidence in which rock materials are laid down, eg. lava, sediments.

CAINOZOIC (Cenozoic)

Era of geological time including the Tertiary and Quaternary, extending from 65 million years ago to the present.

CALCRETE

A surficial calcareous layer formed in the soil or near surface sediments.

CAMBRIAN

The earliest period of the Palaeozoic Era, spanning from approximately 545 million to 490 million years ago.

CARBONACEOUS

Usually applied to a sedimentary rock containing carbon (often as plant matter) as detrital material.

CARBONATE

Rocks composed of carbonates of calcium, iron or magnesium eg. limestone, dolomite.

COFFINITE

A black tetragonal mineral. An important ore of uranium, it occurs in many sandstone deposits and in hydrothermal veins.

COVER

Surficial sediments mantling older rocks and part of the regolith.

CRATON

A large, tectonically stable part of the Earth's crust eg. Gawler Craton, Yilgarn Craton.

EL

Exploration Licence granted by a Government Department (PIRSA) for mineral exploration.

ELA

Exploration Licence Application made by a company to a Government Department (PIRSA) for mineral exploration.

ELECTROMAGNETIC SURVEY (EM)

An exploration technique, involving a survey carried out along equally spaced lines, that measures changes in the Earth's magnetic field at different times after the application of an electrical field. May identify anomalies where the rocks are conductive or palaeochannels containing conductive saline water.

FAULT

A fracture in rocks in which rock on one side has moved relative to rock on the other.

FELSICS

Light coloured igneous rocks rich in silica.

FERRICRETE

Surficial layer cemented with iron oxide.

GEOPHYSICAL SURVEY

An exploration technique involving a systematic survey of the variation in the physical properties of the rocks or regolith (eg. electrical resistivity/conductivity, magnetism, gravity) to help in understanding the geology or defining drill targets in an area.

GNEISS

A banded metamorphic rock in which crystalline rock is interspersed with flaky micaceous minerals.

GOETHITE

A yellow, red or brown mineral, FeO(OH) , often the commonest constituent of limonite.

GRAVITY SURVEY

A geophysical survey technique in which the force of gravity is systematically measured over an area, often producing anomalies, which may present drill targets.

HAEMATITE

A mineral composed mainly of ferric iron oxide and the main component of iron ore.

IGNEOUS

Rocks formed by crystallisation from molten materials.

IMPERMEABLE

A rock that does not allow water or a fluid to move through it eg. a clay or shale.

INFERRED RESOURCE

An 'Inferred Mineral Resource' is that part of a Mineral Resource for which tonnage, grade and mineral content can be estimated with a low level of confidence. It is inferred from geological evidence and assumed but not verified geological and/or grade continuity.

IN SITU LEACHING

In this case, circulating an acid-containing liquid through the sediment containing uranium, dissolving the uranium which is then extracted when the liquid is collected at the surface.

INTRUSIVE ROCKS

An igneous rock that was intruded whilst molten into the Earth's crust eg. dyke, pluton, sill.

IRON FORMATION

A sedimentary rock containing significant iron as oxide, carbonate or silicate.

LIGNITIC

Usually applied to a carbonaceous sedimentary rock containing abundant organic matter, approaching low grade coal often as lenses and thin beds. Typical of sediments laid down on floodplains and deltas.

MAGNETITE

A black, cubic, strongly magnetic, opaque mineral.

MESOPROTEROZOIC

An interval of geological time in the Proterozoic extending from 1.6 to 1.0 billion years ago.

MESOZOIC

A period of geological time extending from 251 million to 65 million years ago and known as the age of the reptiles.

METAMORPHISM

Changes to rocks generally brought about by heat and pressure within the Earth's crust resulting in rocks such as schist and gneiss.

OREBODY

A mineral mass of sufficient size as to be economic to extract.

PALEOCENE

Interval of geological time (part of the early Tertiary) 53.0-66.5 million years ago.

PALAEOCHANNEL

An ancient river channel now filled with sediment and preserved in the geological record; commonly of Tertiary age on the Gawler Craton.

PALAOENVIRONMENT

An environment in the geological past.

PALAEOPROTEROZOIC

The older part of the Proterozoic extending from 2.5 billion to 1.6 billion years ago.

PERMEABLE

A rock that allows water or liquid to move through it (as in an aquifer).

PERMIAN

The last period of the Palaeozoic Era, 250-290 million years ago.

PIRSA

The Department of Primary Industries and Resources South Australia, the geological survey and regulatory authority in SA.

PLIOCENE

Interval of geological of time (part of the late Tertiary) 5.3-1.6 million years ago.

PROTEROZOIC

The latest part of the Precambrian spanning approximately 2.5 billion to 550 million years ago.

PYRITE

The mineral iron sulphide, often associated with copper and gold. If a rock contains significant pyrite it is referred to as pyritic.

RADIOMETRIC SURVEY

An (airborne) exploration survey technique in which measurements are made of the ambient radiation from the Earth's surface.

ROLL FRONT URANIUM

Uranium accumulated at the interface between uranium-bearing oxygen-rich groundwater and a reduced aquifer host.

SCINTILLOMETER

An instrument for measuring ionizing radiation and detecting uranium.

SEQUENCE

A succession of rocks.

SHEAR ZONE

A linear zone such as a fault in which rocks have been deformed.

STRATA

Layers of sedimentary rock.

SUBCROP

Rocks underlying the surface cover.

TERTIARY

A geological period extending from 65 million years ago to about 1.8 million years ago.

U

Symbol for the element uranium.

U₃O₈

The chemical symbol for uranium oxide.

UNCONFORMITY

A substantial break in the geological record represented by a marked change in the rocks, eg. sedimentary rocks overlying granite.

UNCONFORMITY STYLE URANIUM

An accumulation of uranium along the boundary between an impermeable rock and a permeable rock (at an unconformity) containing uranium.

VEIN

A thin intrusion (commonly known as quartz) into a fissure in a rock.

VOLCANISM/VOLCANIC

Volcanic activity/rock or feature formed by volcanic activity.

WEATHERING

The destruction of rocks by chemical and physical processes.

2011 FINANCIAL REPORT

DIRECTORS' REPORT

■ **The Directors present their report on Marmota Energy Limited – consolidated entity ('Group') for the year ended 30 June 2011 and the auditor's report thereon.**

DIRECTORS

The Directors of Marmota Energy Limited ('the Company') at any time during or since the end of the financial year are as set out below. Details of Directors' qualifications, experience and special responsibilities are as follows:

Mr Robert Michael Kennedy ASAIT, Grad. Dip (Systems Analysis), FCA, ACIS, Life member AIM, FAICD.

Non-executive Chairman. A chartered accountant and consultant to Kennedy & Co, Chartered Accountants, a firm he founded.

He joined Marmota Energy Limited in April 2006 as Non-executive Chairman. Chairman of Beach Energy Limited (since 1995 and a Director since 1991), Flinders Mines Limited (since 2001), Ramelius Resources Limited (since 1995), Maximus Resources Limited (since 2004), ERO Mining Limited (since 2006), Monax Mining Limited (since 2004) and Somerton Energy Limited (since 2010). His special responsibilities include membership of the Audit and Corporate Governance Committee and the Remuneration and Nomination Committee. Mr Kennedy brings to the Board his expertise in finance and management consultancy and extensive experience as Chairman and Non-executive Director of a range of listed public companies including the resource sector.

Interests in Shares and Options – 3,568,093 ordinary shares of Marmota Energy Limited and options to acquire a further 1,350,000 ordinary shares.

Mr Reginald George Nelson BSc, Hon

Life Member Society of Exploration Geophysicists, FAusIMM, FAICD.

Non-executive Director. Board member since 28 April 2006. Mr Nelson is an exploration geophysicist with a career spanning four decades in the petroleum and minerals industries. He was awarded honorary Life Membership of the Society of Exploration Geophysicists in 1989 and the Prime Minister's Centenary Medal in 2002 for services to mining. He has wide experience in technical, corporate and government affairs. He was Chairman of the Australian Petroleum Production and Exploration Association (APPEA) from 2004 to 2006 and is a Director of the APPEA Executive Committee and remains a member of its Council. He was recently awarded the Reg Sprigg Medal for outstanding contribution to the oil and gas industry at the 2009 APPEA Conference in Darwin.

Special responsibilities include membership of the Remuneration and Nomination Committee.

Other listed company directorships are: Managing Director of Beach Energy Limited (since 1992), Ramelius Resources Limited (since 1995), Monax Mining Limited (since 2004) and Sundance Energy Australia Limited (since 2010).

Interests in Shares and Options – 1,154,285 ordinary shares of Marmota Energy Limited and options to acquire a further 450,000 ordinary shares.

Mr Glenn Stuart Davis LLB, BEc

Non-executive Director. Board member since 28 April 2006. A solicitor and partner in DMAW Lawyers. He has considerable expertise and experience in capital raisings, capital reductions, acquisitions and takeovers, managed investment schemes, Director's duties and the requirements of the Corporations Act and the ASX listing rules. He also has specialist skills and knowledge about the resources industry.

Special responsibilities include membership of the Audit and Corporate Governance Committee.

Other listed company directorships are: Beach Energy Limited (director since July 2007 and Deputy Chairman since June 2009) and Monax Mining Limited (since 2004).

Interests in Shares and Options – 3,057,143 ordinary shares of Marmota Energy Limited and options to acquire a further 1,350,000 ordinary shares.

DIRECTORS' REPORT (CONT.)

Dr Neville Foster Alley Phd, PSM

Executive Technical Director. Board member since 28 April 2006. Dr Alley is an internationally known earth science researcher and was awarded the Verco Medal for his contribution and leadership in the earth sciences and the Public Service Medal (PSM) in 2005 for outstanding contribution to geology and the minerals industry. He has extensive experience at senior levels in Government in Canada and as Director, Minerals, MESA and PIRSA and has a high level understanding of Government policy, regulation and legislation. He made a significant contribution in setting the SA Government's strategies for reinvigorating the minerals industry and led the development of Government initiatives such as TEISA and PACE. Dr Alley has worked closely with Aboriginal people and the community in developing a higher profile for the resources industry.

Other listed company directorships are: InterMet Resources Limited (since 2004 until August 2008), Beach Energy Limited (since July 2007), Monax Mining Limited (since 2005) and ERO Mining Limited (from January 2011 until June 2011) and is a Visiting Research Fellow, School of Earth and Environmental Sciences, The University of Adelaide.

Interests in Shares and Options – 2,700,001 ordinary shares of Marmota Energy Limited and options to acquire a further 1,350,000 ordinary shares.

Mr Domenic Joseph Calandro BSc, AIG

Managing Director. Board member since 9 July 2007. Experience of 14 years in the management, processing, and provision of geophysical data and information with a strong record of project outcome delivery. He has significant geoscience expertise, with experience advising mineral explorers on appropriate geophysical methods and tools to use in exploration for a variety of commodities. He has previously held the position of Chief Mineral Geophysicist for the South Australian Government where he was responsible for the design and management of a variety of large-scale Government geophysical acquisition programs, which were successfully completed as part of the SAEI and TEISA initiatives. As Manager of the geoscience data and information systems for the South Australian Government, he contributed to the reduction of exploration risk for mineral explorers in the state. Mr Calandro was also the Manager of the highly successful PACE initiative, which featured a collaborative drilling program, large-scale geophysical acquisition projects and innovative data management and delivery improvement programs.

Interests in Shares and Options – 2,580,000 ordinary shares of Marmota Energy Limited and options to acquire a further 1,375,000 ordinary shares.

DIRECTORS' MEETINGS

The Company held 15 meetings of Directors (including committees of Directors) during the financial year. The number of Directors' meetings and number of meetings attended by each of the Directors of the Company (including committees of Directors) during the financial year were as follows:

	Directors' Meetings		Audit & Corporate Governance Committee Meetings		Remuneration & Nomination Committee Meetings	
	Number Eligible to Attend	Number Attended	Number Eligible to Attend	Number Attended	Number Eligible to Attend	Number Attended
DIRECTOR						
Robert Michael Kennedy	10	10	3	3	2	2
Reginald George Nelson	10	8	-	-	2	2
Glenn Stuart Davis	10	10	3	3	-	-
Neville Foster Alley	10	10	-	-	-	-
Domenic Joseph Calandro	10	10	-	-	-	-

Messrs Davis and Kennedy are members of the Audit and Corporate Governance Committee and Messrs Nelson and Kennedy are members of the Remuneration and Nomination Committee.

COMPANY SECRETARY

The following person held the position of Company Secretary at the end of the financial year.

VIRGINIA KATHERINE SUTTELL

B.Comm., ACA., GAICD., GradDipACG
Appointed Company Secretary and Chief Financial Officer on 21 November 2007. A Chartered Accountant with 18 years experience working in public practice and in commerce with publicly listed entities.

PRINCIPAL ACTIVITIES

The Group's principal activity is minerals exploration.

REVIEW AND RESULTS OF OPERATIONS

During the period Marmota Energy maintained its momentum in delivering focused exploration programs across the Company's portfolio of exploration assets. Marmota continued to execute successful exploration programs on its key projects of Melton, Junction Dam and with its partners on its Nevada gold projects. At Junction

Dam a phase 3 drilling program returned further high grades from extension drilling. The drilling defined two new zones of uranium mineralisation. This strike length of the zone of uranium mineralisation has now grown to 15 kilometres. Marmota owns 74.5% of the uranium rights on Junction Dam which is set to grow with exploration completed in 2011.

An iron ore discovery was made on Marmota's Western Spur project. A number of large scale iron ore outcrops were sampled with assay results of up to 58.94% Fe, and 28.07% Mn returned from outcrops within an 8 kilometre zone.

In the copper - gold space, Marmota has commenced its exploration on the prospective West Melton project. A Phase 2 reconnaissance program designed to continue to test copper potential of on the Miranda target was completed. Three of four drill holes intercepted copper on the Miranda target during the Phase 2 program. Drill hole MIRDD06 intercepted broad low grade zones of copper returning grades of up to 1.2 % copper.

In Nevada, Marmota with partner Ramelius Resources (RMS) commenced reconnaissance drill testing on the Big Blue and Angel Wing gold projects. Results achieved on the projects included intercepts up to 6.11 g/t gold from the first drill hole in the maiden drill program on the Big Blue gold project. Drilling is scheduled to resume in the second half of 2011.

RESULTS

During the year, the Group continued exploration activities at its tenements. Total cash expenditure on exploration and evaluation activities totalled \$3,224,297.

The net profit/(loss) of the group after income tax was \$23,279 (2010: \$(473,352)).

DIVIDENDS

No dividends have been paid or provided by the Group since the end of the previous financial year.

STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the Group during the year.

DIRECTORS' REPORT (CONT.)

EVENTS SUBSEQUENT TO REPORTING DATE

On 1 July 2011, 700,000 share rights vested and resulted in the issue of 500,000 fully paid ordinary shares to the Managing Director and 200,000 fully paid ordinary shares to the Company Secretary.

On 29 July 2011, 250,000 share options were granted to employees under the Marmota Energy Limited Employee Share Option Plan. The exercise price of the options is 7.3 cents with an expiry date of 29 July 2016.

Other than the matters noted above, there has not arisen any matters or circumstances, since the end of the financial year which significantly affected or could significantly affect the operations of the Group, the results of those operations, or the state of the Group in future years.

LIKELY DEVELOPMENTS

Further information about likely developments in the operations of the Group and the expected results of those operations in future years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION AND PERFORMANCE STATEMENT

The Group's operations are subject to significant environmental regulations under both Commonwealth and South Australian legislation in relation to discharge of hazardous waste and materials arising from any mining activities and development conducted by the Group on any of its tenements. To date the Group has only carried out exploration activities and there have been no known breaches of any environmental obligations.

INDEMNIFICATION AND INSURANCE OF OFFICERS

INDEMNIFICATION

The Company is required to indemnify the Directors and other Officers of the Company against any liabilities incurred by the Directors and Officers that may arise from their position as Directors and Officers of the Company. No costs were incurred during the year pursuant to this indemnity.

The Company has entered into deeds of indemnity with each Director whereby, to the extent permitted by the Corporations Act 2001, the Company agreed to indemnify each Director against all loss and liability incurred as an officer of the Company, including all liability in defending any relevant proceedings.

INSURANCE PREMIUMS

Since the end of the previous year the Company has paid insurance premiums in respect of Directors' and Officers' liability and legal expenses' insurance contracts.

The terms of the policies prohibit disclosure of details of the amount of the insurance cover, the nature thereof and the premium paid.

OPTIONS

At the date of this report unissued ordinary shares of Marmota Energy Limited under option are:

Expiry date*	Exercise price	Number of Options	Vested	Unvested	Amount paid/ payable by recipient (\$)
11/07/2012	\$0.40	28,000,000	28,000,000	-	-
23/12/2013	\$0.04	250,000	250,000	-	-
05/03/2015	\$0.1016	400,000	400,000	-	-
21/12/2015	\$0.083	125,000	125,000	-	-
29/07/2016	\$0.073	250,000	250,000	-	-

* All options may be exercised at any time before expiry subject to escrow restrictions. Option holders will receive one ordinary share in the capital of the Company for each option exercised.

These options do not entitle the holder to participate in any share issue of the Company or any other body corporate.

During or since the end of the financial year, no ordinary shares were issued by the Company as a result of the exercise of options. There were no amounts unpaid on shares issued.

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court for leave to bring proceedings on behalf of the Company or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings. The Company was not a party to any such proceedings during the year.

NON-AUDIT SERVICES

There were no non-audit services provided by the external auditors during the year ended 30 June 2011.

AUDITOR OF THE COMPANY

The auditor of the Company for the financial year was Grant Thornton.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration as required by section 307C of the Corporations Act 2001 for the year ended 30 June 2011 is set out immediately following the end of the Directors' report.

DIRECTORS' REPORT

REMUNERATION REPORT - AUDITED

REMUNERATION POLICY

The remuneration policy of Marmota Energy Limited has been designed to align key management personnel objectives with shareholder and business objectives by providing a fixed remuneration component and offering other incentives based on performance in achieving key objectives as approved by the Board. The Board of Marmota Energy Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best key management personnel to run and manage the Company, as well as create goal congruence between directors, executives and shareholders.

The Company's policy for determining the nature and amounts of emoluments of board members and other key management personnel of the Company is as follows.

The Company's Constitution specifies that the total amount of remuneration of Non-executive Directors shall be fixed from time to time by a general meeting. The current maximum aggregate remuneration of Non-executive Directors has been set at \$400,000 per annum. Directors may apportion any amount up to this maximum amount amongst the Non-executive Directors as they determine. Directors are also entitled to be paid reasonable travelling, accommodation and other expenses incurred in performing their duties as Directors. The remuneration of the Managing Director is determined by the Non-executive Directors on the Remuneration and Nomination Committee and approved by the Board as part of the terms and conditions of his employment which are subject to review from time to time. The remuneration of other executive officers and employees is determined by the Managing Director subject to the approval of the Board.

Non-executive Director remuneration is by way of fees and statutory superannuation contributions. Non-executive Directors do not participate in schemes designed for remuneration of executives nor do they receive options or bonus payments and are not provided with retirement benefits other than salary sacrifice and statutory superannuation.

The Company's remuneration structure is based on a number of factors including the particular experience and performance of the individual in meeting key objectives of the Company. The Remuneration and Nomination Committee is responsible for assessing relevant employment market conditions and achieving the overall, long term objective of maximising shareholder benefits, through the retention of high quality personnel.

The Company does not presently emphasise payment for results through the provision of cash bonus schemes or other incentive payments based on key performance indicators of Marmota Energy Limited given the nature of the Company's business as a mineral exploration entity and the current status of its activities. However the Board may approve the payment of cash bonuses from time to time in order to reward individual executive performance in achieving key objectives as considered appropriate by the Board.

From time to time, the Company may grant retention rights as considered appropriate by the Remuneration and Nomination Committee and the Board, as a long term incentive for key management personnel. These rights are subject to shareholder approval at the Annual General Meeting in the year of grant. The intention of this remuneration is to facilitate the retention of key management personnel in order that the goals of the business and shareholders can be met. Under the terms of the issue of the retention rights, the rights will vest over a period of time, with a proportion of the rights vesting each year.

The Company also has an Employee Share Option Plan approved by shareholders that will enable the Board to offer eligible employees options to acquire ordinary fully paid shares in the Company. Under the terms of the Plan, options for ordinary fully paid shares may be offered to the Company's eligible employees at no cost unless otherwise determined by the Board in accordance with the terms and conditions of the Plan. The objective of the Plan is to align the interests of employees and shareholders by providing employees of the Company with the opportunity to participate in the equity of the Company as an incentive to achieve greater success and profitability for the Company and to maximise the long term performance of the Company.

The employment conditions of the Managing Director, Mr Calandro are formalised in a contract of employment. The base salary as set out in the employment contract is reviewed annually. The Managing Director's contract may be terminated at any time by mutual agreement.

SHARES ISSUED ON EXERCISE OF REMUNERATION OPTIONS

No shares were issued to Directors as a result of the exercise of remuneration options during the financial year.

SHARE RIGHTS GRANTED

During the 2011 financial year, a total of 2,100,000 retention rights with a fair value of \$191,100 were granted to key management personnel.

DIRECTORS' REPORT

REMUNERATION REPORT - AUDITED (CONT.)

DIRECTORS' INTERESTS IN SHARES, RIGHTS AND OPTIONS

Directors' relevant interests in shares, rights and options of the Company are disclosed in Note 5 of the Financial Report.

REMUNERATION OF DIRECTORS AND KEY MANAGEMENT PERSONNEL

This report details the nature and amount of remuneration for each key management personnel of the consolidated entity and for the executives receiving the highest remuneration.

(a) Directors and key management personnel

The names and positions held by Directors and key management personnel of the consolidated entity during the whole of the financial year are:

Directors	Position
Mr RM Kennedy	Chairman - Non-executive
Mr RG Nelson	Director - Non-executive
Mr GS Davis	Director - Non-executive
Dr NF Alley	Director - Executive
Mr DJ Calandro	Managing Director - Executive
Key management personnel	
Ms VK Sutell	Chief Financial Officer / Company Secretary

(b) Directors' remuneration

2011 primary benefits	Directors' fees \$	Salary, fees and leave \$	Cash bonus \$	Non cash items \$	Super contribution \$	Long service leave \$	Options/ rights \$	Total \$	Proportion of remuneration related to performance
Directors									
Mr RM Kennedy	73,395	-	-	-	6,605	-	-	80,000	-
Mr RG Nelson	41,973	-	-	-	3,777	-	-	45,750	-
Mr GS Davis*	45,750	-	-	-	-	-	-	45,750	-
Dr NF Alley	-	80,000	-	-	7,200	-	-	87,200	-
Mr DJ Calandro	-	215,972	-	28,828	15,200	-	82,244	342,244	24.0%
	161,118	295,972	-	28,828	32,782	-	82,244	600,944	13.6%

2010 primary benefits	Directors' fees \$	Salary, fees and leave \$	Cash bonus \$	Non cash items \$	Super contribution \$	Long service leave \$	Options/ rights \$	Total \$	Proportion of remuneration related to performance
Directors									
Mr RM Kennedy	70,413	-	-	-	6,337	-	-	76,750	-
Mr RG Nelson	40,252	-	-	-	3,623	-	-	43,875	-
Mr GS Davis*	43,875	-	-	-	-	-	-	43,875	-
Dr NF Alley	-	66,667	-	-	20,533	-	-	87,200	-
Mr DJ Calandro	-	205,264	12,500	30,275	14,461	-	-	262,500	4.7%
Mr AJ Andrejewskis**	2,000	-	-	-	-	-	-	2,000	-
Ms RC Healy**	2,000	-	-	-	-	-	-	2,000	-
	158,540	271,931	12,500	30,275	44,954	-	-	518,200	2.4%

* Director's Fees for Mr Davis are paid to a related entity of the Director.

** Mr Andrejewskis and Ms Healy received remuneration for their services as Alternate Directors in the 2010 financial year.

(c) Key management personnel remuneration

2011 primary benefits	Directors' fees \$	Salary, fees and leave \$	Cash bonus \$	Non cash items \$	Super contribution \$	Long service leave \$	Options/ rights \$	Total \$	Proportion of remuneration related to performance
-----------------------	--------------------	---------------------------	---------------	-------------------	-----------------------	-----------------------	--------------------	----------	---

Key management personnel excluding Directors

Ms VK Suttell*	-	100,574	-	4,326	7,600	-	29,298	141,798	20.6%
	-	100,574	-	4,326	7,600	-	29,298	141,798	20.6%

2010 primary benefits	Directors' fees \$	Salary, fees and leave \$	Cash bonus \$	Non cash items \$	Super contribution \$	Long service leave \$	Options/ rights \$	Total \$	Proportion of remuneration related to performance
-----------------------	--------------------	---------------------------	---------------	-------------------	-----------------------	-----------------------	--------------------	----------	---

Key management personnel excluding Directors

Ms VK Suttell*	-	78,135	2,000	-	6,923	-	4,725	91,783	7.3%
	-	78,135	2,000	-	6,923	-	4,725	91,783	7.3%

* Ms Suttell was appointed as Company Secretary and Chief Financial Officer on 21 November 2007. Until 30 June 2010, Ms Suttell was employed by Groundhog Services Pty Ltd to act as Company Secretary and Chief Financial Officer for Marmota Energy Limited and Monax Mining Limited. Marmota Energy Limited is charged a service fee by that entity which includes a fee for the provision of her services covering remuneration, on-costs and associated expenses relating to the secretarial and financial services provided to Marmota Energy Limited. Effective 1 July 2010, Ms Suttell is employed by the Groundhog Services Partnership.

(d) Service agreements

The Managing Director was appointed in 2007 on an ongoing employment basis. The salary was reviewed in July 2011 and set at \$273,000 per annum inclusive of superannuation guarantee contributions and includes a three month notice period. There were neither post employment retirement or termination benefits previously approved by members of the Company in a general meeting nor any paid to Directors of the Company.

The Executive Director was appointed in 2007. He was contracted for a term of one year expiring in December 2008. His contract was renewed for a further term of one year, expiring in December 2009. Since

expiry of his contract in December 2009, the Executive Director's employment has continued on an ongoing employment basis. The Executive Director's remuneration was reviewed effective 1 July 2011 and set at \$91,560 per annum inclusive of superannuation guarantee contributions and includes a four week notice period. There were neither post employment retirement or termination benefits previously approved by members of the Company in a general meeting nor any paid to Directors of the Company.

(e) Director related entities

Information of amounts paid to director related entities is set out in Note 24 to the financial statements.

(f) Post-employment/retirement and termination benefits

There were no post employment retirement and termination benefits paid or payable to directors and key management personnel.

DIRECTORS' REPORT

REMUNERATION REPORT - AUDITED (CONT.)

OPTIONS AND RIGHTS GRANTED

Apart from the options granted to directors in their capacity as employees of the company under the Employee Share Option Plan as detailed below, no other options were granted to directors or key management personnel of the company during the financial year.

Options	Grant Details			For the financial year ended 30 June 2011					Overall		
	Date	No.	Value \$	Exer- cise No.	Exer- cise \$	Lapsed No.	Lapsed \$	Vested No.	Vested %	Un- vested %	Lapsed %
Group key management personnel				(Note 1)	(Note 2)	(Note 3)		(Note 4)			
Mr D Calandro	21.12.2010	125,000	9,000	-	-	-	-	125,000	100	-	-
		125,000	9,000	-	-	-	-	125,000			

Note 1 - The value of options granted as remuneration and as shown in the above table has been determined in accordance with applicable accounting standards.

Note 2 - All options exercised resulted in the issue of ordinary shares in Marmota Energy Limited on a 1:1 basis. All persons exercising options paid the relevant exercise price in its entirety.

Note 3 - The value of options that has been exercised during the year as shown in the above table was determined as at the time of exercise.

Note 4 - The value of options that has lapsed during the year due to vesting conditions not being satisfied has been determined at the time of their lapsing as if vesting conditions have been satisfied.

During the year, share rights were granted to key management personnel as detailed below:

Retention Rights	Grant Details			For the financial year ended 30 June 2011					Overall		
	Date	No.	Value \$	Exer- cise No.	Exer- cise \$	Lapsed No.	Lapsed \$	Vested No.	Vested %	Un- vested %	Lapsed %
Group key management personnel											
Mr D Calandro*	19.11.2010	1,500,000	136,500	-	-	-	-	-	-	-	-
Ms V Sutell*	19.11.2010	600,000	54,600	-	-	-	-	-	-	-	-
		2,100,000	191,100	-	-	-	-	-	-	-	-

*Retention rights vest one third on each of 1 July 2011, 1 July 2012 and 1 July 2013.

DESCRIPTION OF OPTIONS/RIGHTS ISSUED AS REMUNERATION

Details of the options and rights granted as remuneration to those key management personnel listed in the previous table are as follows:

Grant date	Issuer	Entitlement on exercise	Dates exercisable	Exercise price	Value per option/right at grant date	Amount paid/payable by recipient
Options						
23.12.2008	Marmota Energy Limited	1:1 Ordinary shares in Marmota Energy Limited	From issue date to 23.12.2013	\$0.04	\$0.038	-
05.03.2010	Marmota Energy Limited	1:1 Ordinary shares in Marmota Energy Limited	From issue date to 05.03.2015	\$0.1016	\$0.063	-
21.12.2010	Marmota Energy Limited	1:1 Ordinary shares in Marmota Energy Limited	From issue date to 21.12.2015	\$0.083	\$0.073	-
Rights						
19.11.2010	Marmota Energy Limited	1:1 Ordinary shares in Marmota Energy Limited	One third vesting on each of 1 July 2011, 1 July 2012 and 1 July 2013	\$0.00	\$0.091	

Option values at grant date were determined using the Black-Scholes valuation model.

Retention right values at grant date were determined using the Binomial model.

The Report of Directors, incorporating the Remuneration Report, is signed in accordance with a resolution of the Board of Directors:

 Robert Michael Kennedy
 Director

AUDITOR'S INDEPENDENCE DECLARATION TO THE DIRECTORS OF MARMOTA ENERGY LIMITED

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the audit of Marmota Energy Limited for the year ended 30 June 2011, I declare that, to the best of my knowledge and belief, there have been:

- a no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- b no contraventions of any applicable code of professional conduct in relation to the audit.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2011

1 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The financial report includes the consolidated financial statements and notes of Marmota Energy Limited and controlled entities ('consolidated group' or 'Group').

(a) Basis of preparation

This general purpose financial report has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standard Board (AASB) and the Corporation Act 2001. Compliance with Australian Accounting Standards results in full compliance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

The following report covers the consolidated entity, Marmota Energy Limited, a listed public company, incorporated and domiciled in Australia.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on historical costs, modified where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

(b) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Marmota Energy Limited ('parent entity') as at 30 June 2011 and

the result of all subsidiaries for the year then ended. Marmota Energy Limited and its subsidiaries together are referred to in this financial report as the Group or consolidated group.

Subsidiaries are all those entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases. All inter-group balances and transactions between entities in the consolidated group have been eliminated on consolidation. A list of controlled entities is contained in Note 15 to the financial statements.

Accounting policies of subsidiaries are consistent with those adopted by the parent entity.

(c) Income tax

The income tax expense/(benefit) for the year comprises current income tax expense/(income) and deferred income tax (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted at reporting date.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax (expense)/benefit is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying

amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the Statement of Comprehensive Income except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Company will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

(d) Plant and equipment

Each class of plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis less depreciation and impairment losses.

The carrying amount of plant and equipment is reviewed annually by Directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Depreciation

All fixed assets are depreciated on a straight line basis over their useful lives to the Group commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

NOTES TO THE FINANCIAL STATEMENTS (CONT.)

FOR THE YEAR ENDED 30 JUNE 2011

(d) Plant and equipment (cont.)

Class of fixed asset	Depreciation rate
Plant and equipment	5% – 33%

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the Statement of Comprehensive Income. When revalued assets are sold, amounts included in the revaluation reserve relating to that asset are transferred to retained earnings.

(e) Exploration and evaluation expenditure

Exploration and evaluation expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal and rehabilitation of the site in accordance with clauses of the mining permits. Such costs are determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly, the costs are determined on the basis that the restoration will be completed within one year of abandoning the site.

(f) Leases

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

(g) Financial instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the provisions to the instrument. For financial assets this is equivalent to the date that the Group commits itself to either the purchase or sale of the asset.

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through the profit or loss', in which case the costs are expensed to the Statement of Comprehensive Income immediately.

Classification and subsequent measurement

Financial instruments are subsequently measured at either of fair value, amortised cost using the interest rate method or cost. Fair value represents the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties. Where available, quoted prices in an active market are used to determine fair value.

The Group does not designate any interests in subsidiaries, associates or joint venture entities as being subject to the requirements of accounting standards specifically applicable to financial instruments:

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost. Loans and receivables are included in current assets except for those not expected to mature within 12 months after the end of the reporting period.

(ii) Financial liabilities

Non-derivative financial liabilities are subsequently measured at amortised cost.

Impairment

At each reporting date, the Group assesses whether there is objective evidence that a financial instrument has been impaired.

	<p>(j) Provisions</p> <p>Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.</p>	<p>(o) Investments in associates</p> <p>Associate companies are companies in which the group has significant influence through holding, directly or indirectly, 20% or more of the voting power of the company. Investments in associate companies are recognised in the financial statements by applying the equity method of accounting. The equity method of accounting recognises the initial investment at cost and adjusted thereafter for the Group's share of post-acquisition reserves and profits/ (losses) of its associates. Details of the Group's interest in associates is shown at Note 13.</p>
<p>(h) Impairment of assets</p> <p>At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the Statement of Comprehensive Income.</p>	<p>(k) Cash and cash equivalents</p> <p>Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.</p>	<p>(p) Trade and other payables</p> <p>Trade and other payables represent the liability outstanding at the end of the reporting period for goods and services received by the group during the period which remains unpaid. The balance is recognised as a current liability with the amount being normally paid within 30 days of recognition of the liability.</p>
<p>(i) Employee benefits</p> <p>Provision is made for the Group's liability for employee benefits arising from services rendered by employees to reporting date. Employee benefits that are expected to be settled within one year are measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year are measured at the present value of the estimated future cash outflows to be made for those benefits.</p>	<p>(l) Revenue</p> <p>Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets, is the rate inherent in the instrument.</p> <p>All revenue is stated net of goods and services tax (GST).</p>	<p>(m) Goods and services tax</p> <p>Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST), except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.</p> <p>Receivables and payables are stated in the Statement of Financial Position inclusive of GST.</p> <p>The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Statement of Financial Position.</p>
<p>In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy vesting requirements. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.</p>	<p>Cash flows are included in the Statement of Cash Flows on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.</p>	<p>(q) Earnings per share</p> <p>(i) Basic earnings per share</p> <p>Basic earnings per share is calculated by dividing the profit/(loss) attributable to equity holders of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.</p> <p>(ii) Diluted earnings per share</p> <p>Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect and other financing costs associated with dilutive potential ordinary shares and the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.</p>
<p>Equity settled compensation</p> <p>The Group operates equity settled share-based payment employee share option schemes. The fair value of options is ascertained using the Black-Scholes pricing model which incorporates all market vesting conditions. The fair value of retention rights is ascertained using the binomial valuation model.</p>	<p>(n) Interests in joint ventures</p> <p>The Consolidated Entity's share of the assets, liabilities, reserves and expenses of joint venture operations are included in the appropriate items of the consolidated financial statements. Details of the Group's interests are shown at Note 14.</p>	

NOTES TO THE FINANCIAL STATEMENTS (CONT.)

FOR THE YEAR ENDED 30 JUNE 2011

(r) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(s) Critical accounting estimates and judgements

The Directors evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends of economic data, obtained both externally and within the Group.

Key estimates – impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined.

Key judgements- exploration and evaluation expenditure

The group capitalises expenditure relating to exploration and evaluation where it is considered likely to be recoverable or where the activities have not reached a stage which permits a reasonable assessment of the existence of reserves. While there are certain areas of interest from which no reserves have been extracted, the directors are of the continued belief that such expenditure should not be written off since feasibility studies in such areas have not yet concluded.

(t) Carbon tax impact

On 10 July 2011, the Commonwealth Government announced the 'Securing a Clean Energy Future – the Australian Government's Climate Change Plan'. Whilst the announcement provides further details of the framework for a carbon pricing mechanism, uncertainties continue to exist on the impact of any carbon pricing mechanism on the Group as legislation must be voted on and passed by both houses of Parliament. In addition, as the Group will not fall within the 'Top 500 Australian Polluters', the impact of the Carbon Scheme may be through indirect effects of increased prices on many production inputs and general business expenses as suppliers subject to the carbon pricing mechanism may pass on their burden to their customers in the form of increased prices.

(u) Adoption of the new and revised accounting standards

During the current year the Group adopted all of the new and revised Australia Accounting Standards and Interpretations applicable to its operations which became mandatory.

Recently issued accounting standards to be applied in future reporting periods

The accounting standards that have not been early adopted for the year ended 30 June 2011, but will be applicable to the Group in future reporting periods are detailed below. Apart from these standards, we have considered other accounting standards that will be applicable in future reporting periods, however they have been considered insignificant to the Group.

- i) Consolidated Financial Statements IFRS 10: "Consolidated Financial Statements" was issued by the IASB in May 2011 and replaces both the existing IAS 27: "Consolidated and Separate Financial Statements" and SIC 12: "Consolidation- Special Purpose Entities". The new standard revises the definition of control and related application guidance so that a single control model can be applied to all entities. This standard will apply to the Group from 1 July 2013 and it is believed there will be insignificant impact.

(u) Adoption of the new and revised accounting standards (cont.)

ii) Joint Arrangements

IFRS 11: "Joint Arrangements" was issued by the IASB in May 2011 and provides for a more realistic reflection of joint venture arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interest in jointly controlled entities. This standard is applicable from 1 July 2013, with early adoption permitted.

Management is assessing the impact on the Group, but at this stage it is believed there will be insignificant impact.

iii) Disclosure of Interests in Other Entities

IFRS 12: "Disclosure of Interests in other Entities" was issued by the IASB in May 2011 and is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. This standard is applicable from 1 July 2013 and management is currently assessing the impacts of the standard, which will be limited to disclosure impacts only. There have also been consequential amendments to IAS 28: "Investments in Associates" as a result of above new standard. These amendments are applicable from 1 July 2013.

iv) Fair Value Measurement

IFRS 13: "Fair Value Measurements" was issued by the IASB in May 2011 and provides a precise definition of fair value, as a single source of fair value measurement and prescribes disclosure requirements for use across IFRS. The requirements do not extend the use of fair value accounting, but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRS. The standard will apply to the Group from 1 July 2013 and at this stage it is believed there will be no impact.

v) Other

In addition to the above recently issued accounting standards that are applicable in future years, we note the following new accounting standards that are applicable in future years:

- AASB 124: "Related Party Disclosures";
- AASB 2009-12: "Amendments to Australian Accounting Standards";
- AASB 2010-4: "Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project";
- AASB 2010-5: "Amendments to Australian Accounting Standards";
- AASB 2010-8: "Amendments to Australian Accounting Standards- Deferred Tax: Recovery of Underlying Assets" and
- AASB 2011-4: "Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements".

We do not expect these standards to materially impact our financial results upon adoption.

(v) Parent entity financial information

The financial information for the parent entity, Marmota Energy Limited, disclosed in Note 27 has been prepared on the same basis as the consolidated financial statements.

(w) Foreign currency translation

(i) Functional and presentational currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (functional currency). The consolidated financial statements are presented in Australian dollars, which is Marmota Energy Limited's functional and presentational currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

(x) Authorisation for issue of financial statements

The financial statements were authorised for issue by the Board of Directors on 19 September 2011.

500,000 (2010:nil) shares issued for acquisition of mineral tenement	-	-
Less transaction costs arising from issue of shares net of tax	-	(134,090)
Balance at end of year	26,107,908	26,106,308

Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at shareholders' meetings.

Ordinary shares have no par value and the Group does not have a limited amount of authorised capital.

In the event of winding up of the Group ordinary shareholders rank after all creditors and are fully entitled to any proceeds of liquidation.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)

FOR THE YEAR ENDED 30 JUNE 2011

19 ISSUED CAPITAL (CONT.)

(b) Options/rights

For information relating to share options/retention rights issued to Executive Directors during the financial year, refer to Note 5.

For information relating to the Marmota Energy Limited Employee Share Option Plan including details of any options issued, exercised and lapsed during the financial year, refer to Note 20.

At 30 June 2011, there were 30,875,000 (2010: 28,690,000) unissued shares for which the following options/rights were outstanding.

- 28,000,000 unlisted options exercisable at \$0.40 by 11/07/2012.
- 250,000 unlisted options exercisable at \$0.04 by 23/12/2013
- 400,000 unlisted option exercisable at \$0.1016 by 05/03/2015
- 125,000 unlisted options exercisable at \$0.083 by 21/12/2015
- 2,100,000 retention rights vesting 1/3 each of 01/07/2011, 01/07/2012 and 01/07/2013

(c) Capital Management

Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure accordingly. These responses include share issues. There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year. The Group's capital is shown as issued capital in the Statement of Financial Position.

20 SHARE-BASED PAYMENTS

Share-based payments are in line with the Marmota Energy Limited Employee Share Option Plan, details of which are outlined in the directors' report. Listed below are summaries of options granted:

(i) Options

Marmota Energy Limited	2011		2010	
	Number of options	Weighted average exercise price \$	Number of options	Weighted average exercise price \$
Outstanding at the beginning of the year	690,000	0.07	625,000	0.04
Granted – March 2010	-	-	400,000	0.10
Granted – December 2010	125,000	0.083	-	-
Forfeited	-	-	-	-
Exercised	(40,000)	0.04	(335,000)	0.04
Expired	-	-	-	-
Outstanding at year-end	775,000		690,000	
Exercisable at year-end	775,000		690,000	

20 SHARE-BASED PAYMENTS (CONT.)

(i) Options (cont.)

On 21 December 2010, 125,000 share options were granted to employees under the Marmota Energy Limited Employer Share Option Plan to take up ordinary shares at an exercise price of \$0.083 each. These options are exercisable on or before 21 December 2015.

On 5 March 2010, 400,000 share options were granted to employees under the Marmota Energy Limited Employer Share Option Plan to take up ordinary shares at an exercise price of \$0.1016 each. These options are exercisable on or before 5 March 2015.

On 23 December 2008, 625,000 share options were granted to employees under the Marmota Energy Limited Employer Share Option Plan to take up ordinary shares at an exercise price of \$0.04 each. These options are exercisable on or before 23 December 2013.

The options are non-transferable except as allowed under the Employee Share Option Plan and are not quoted securities. At reporting date, no share options had been exercised. All options granted to key management personnel are over ordinary shares in Marmota Energy Limited, which confer a right of one ordinary share for every option held.

The fair value of the options granted was calculated by using the Black-Scholes option pricing model applying the following inputs:

	December 2010 issue	March 2010 issue	December 2008 issue
Weighted average fair value	\$0.072	\$0.063	\$0.038
Weighted average exercise price	\$0.083	\$0.1016	\$0.04
Weighted average life of the option	1,825 days	1,825 days	1,825 days
Underlying share price	\$0.09	\$0.09	\$0.04
Expected share price volatility	105%	90%	181%
Risk free interest rate	4.75%	4.0%	4.25%

The life of the options is based on the days remaining until expiry. Volatility is based on historical share prices.

Options granted to Executive Directors and key management personnel on share-based payments are as follows:

Grant Date	Number
23 December 2008	425,000
5 March 2010	75,000
21 December 2010	125,000

The options hold no voting or dividends rights and are unlisted. The options lapse 6 months subsequent to the cessation of employment with the Group. There are no vesting conditions attached to the options.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)

FOR THE YEAR ENDED 30 JUNE 2011

20 SHARE-BASED PAYMENTS (CONT.)

(ii) Retention Rights

On 19 November 2010, a total of 2,100,000 retention rights were granted to two senior executives/key management personnel subsequent to shareholder approval at the Annual General Meeting. The retention rights, being an entitlement to shares in the Company, will vest over three years with one third vesting on each of 1 July 2011, 1 July 2012 and 1 July 2013, at which time shares will be issued to the executives. The fair value of these rights at grant date was \$191,100 of which \$102,542 was recognised during the 2011 financial year in the share based payments reserve and Statement of Comprehensive Income. At reporting date, none of the 2,100,000 rights had vested. The fair value of the rights was determined by obtaining an independent valuation and considering the market price of the underlying shares at the date the rights were granted and assuming that all holders continued to be employees of the Group, adjusted for the risk that vesting conditions are not met.

Each right is issued for no consideration. Once exercisable, a right entitles the holder to one fully paid ordinary share in Marmota Energy Limited. The aggregate value of rights at the grant date is \$191,100 of which \$102,542 was expensed in the 2011 financial year. \$88,558 is to be expensed in subsequent years. In accordance with the requirements of the Australian Accounting Standards, remuneration includes a proportion of the notional value of equity compensation granted or outstanding during the year. The notional value of equity instruments which do not vest during the reporting period is determined at the grant date and is progressively allocated over the vesting period. The amount included as remuneration is not related to or indicative of the benefit (if any) that individuals may ultimately realise should the rights vest. The notional value of rights as at grant date has been determined in accordance with AASB 2. The calculations are performed using an appropriate valuation methodology. The total minimum value of rights if vesting conditions are not met is nil.

Expense arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefits expense were as follows:

	Consolidated	
	2011 \$	2010 \$
Options issued under employee option plan	9,000	25,200
Retention rights issued	102,542	-
	111,542	25,200

21 FINANCIAL RISK MANAGEMENT

The Group's financial instruments consist mainly of deposits with banks, accounts receivable and payable and loans to and from subsidiaries and related entities.

The totals for each category of financial instruments, measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements, are as follows:

	Consolidated	
	2011 \$	2010 \$
Financial assets		
Cash and cash equivalents	2,759,057	1,947,192
Held-to-maturity investments		
- Fixed interest securities	3,020,000	7,500,000
Loans and receivables	454,987	433,452
	6,234,044	9,880,644
Financial liabilities		
Trade and other payables	381,898	430,138
	381,898	430,138

Financial risk management policies

The Board of Directors are responsible for monitoring and managing financial risk exposures of the group.

Specific financial risk exposures and management

The main risks the group is exposed to includes liquidity risk, credit risk and interest rate risk.

(a) Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities.

The Group manages liquidity risk by monitoring forecast cash flows, only investing surplus cash with major financial institutions; and comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

The Board meets on a regular basis to analyse financial risk exposure and evaluate treasury management strategies in the context of the most recent economic conditions and forecasts. The Board's overall risk management strategy seeks to assist the consolidated group in managing its cash flows.

Financial liabilities are expected to be settled within 12 months.

NOTES TO THE FINANCIAL STATEMENTS (CONT.)

FOR THE YEAR ENDED 30 JUNE 2011

21 FINANCIAL RISK MANAGEMENT (CONT.)

(b) Credit risk exposures

Credit risk represents the loss that would be recognised if counterparties failed to perform as contracted.

The maximum exposure to credit risk on financial assets, excluding investments, of the entity which have been recognised in the Statement of Financial Position, is the carrying amount, net of any provision for doubtful debts.

No receivables are considered past due or impaired at reporting date.

(c) Interest rate risk

Exposure to interest rate risk arises on financial assets and liabilities recognised at reporting date whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments.

The Group has no long term financial liabilities upon which it pays interest. Cash is held in an interest yielding cheque account and on short term call deposit where the interest rate is both fixed and variable according to the financial asset.

Interest rate risk is managed with a mixture of fixed and floating rate cash deposits. At 30 June 2011 approximately 92% of group deposits are fixed. It is the policy of the group to keep between 90% and 100% of surplus cash in high yielding deposits.

(d) Sensitivity analysis

Interest rate

The Group has performed a sensitivity analysis relating to its exposure to interest rate risk at reporting date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks. It should be noted that the Group does not have borrowings and any impacts would be in relation to deposit yields on cash investments.

Interest rate sensitivity analysis

At reporting date, the effect on profit/ (loss) and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

	Consolidated	
	2011 \$	2010 \$
Change in loss		
Increase in interest rates by 2%	115,580	188,944
Decrease in interest rates by 2%	(115,580)	(188,944)
Change in equity		
Increase in interest rates by 2%	115,580	188,944
Decrease in interest rates by 2%	(115,580)	(188,944)

(e) Net fair values of financial assets and liabilities

Fair values are amounts at which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The net fair values of financial assets and liabilities are determined by the entity on the following bases:

- (i) Monetary financial assets and financial liabilities not readily traded in an organised financial market are carried at book value and where relevant adjusted for any changes in exchange rates.
- (ii) Non monetary financial assets and financial liabilities are recognised at their carrying values recognised in the Statement of Financial Position.

The carrying amount of financial assets and liabilities is equivalent to fair value at reporting date.

22 COMMITMENTS & CONTINGENT LIABILITIES

(a) Exploration expenditure commitments

In order to maintain current rights of tenure to exploration tenements, the Group will be required to outlay in the year ending 30 June 2012 amounts of approximately \$2,350,000 to meet minimum expenditure requirements pursuant to various joint venture requirements and those specified by the State Government of South Australia. These obligations are subject to renegotiation when application for a mining lease is made and at other times. These obligations are not provided for in the financial report.

Effective 1 July 2008, Groundhog Services Pty Ltd will provide company secretarial and financial services, tenement management, office administration, logistical support and office accommodation. Groundhog has entered into a non-cancellable operating lease commencing in August 2008 for a five year period for office and warehouse accommodation.

(b) Contingent liabilities

As at 30 June 2011, there were no contingent liabilities.

		Consolidated

NOTES TO THE FINANCIAL STATEMENTS (CONT.)

FOR THE YEAR ENDED 30 JUNE 2011

24 RELATED PARTIES

Directors' transactions with the Company

A number of Directors of the Company, or their Director related entities, held positions in other entities during the financial year that result in them having control or significant influence over the financial or operating policies of those entities.

The terms and conditions of the transactions with Directors and their Director related entities were no more favourable to the Directors and their Director related entities than those available, or which might reasonably be expected to be available, on similar transactions to Non-director related entities on an arm's length basis.

The aggregate amounts recognised during the year (excluding re-imbursement of expenses incurred on behalf of the Company) relating to Directors and their Director related entities were as follows:

Director	Transaction	Note	Consolidated	
			2011 \$	2010 \$
GS Davis	Payments to an entity of which the Director is a partner in respect of legal fees		7,483	18,555
Related entity	Payments from a Director related entity for logistical support and exploration expenditure under joint venture agreements.	(i)	443,180	2,579
Associated entity	Payments to a Director related entity for Company Secretarial services, tenement management and office administration and logistical support.		366,201	301,640
RM Kennedy and RG Nelson	Payments to a Director related entity for exploration on the Nevada tenements.		364,534	128,007
DJ Calandro	Payments to a Director related entity for rental of housing for accommodation for field operations.		-	8,818

(i) This amount relates to the exploration undertaken by Marmota Energy Limited on behalf of Monax Mining for projects in South Australia

(ii) This amount relates to the provision of administration and logistical services by Groundhog Services Pty Ltd.

(iii) This amount relates to the exploration undertaken on behalf of Marmota Energy by Ramelius Resources Limited for access and participation in projects in Nevada.

24 RELATED PARTIES (CONT.)

Directors' transactions with the Company (cont.)

Amounts receivable from and payable to Directors and their Director related entities at reporting date arising from these transactions were as follows:

	Consolidated	
	2011 \$	2010 \$
Current receivables		
Loan to director related entity	240	130
Loan to associate	164,018	164,018
	164,258	164,148
Current payables		
Amounts payable to director related entities*	66,146	76,374
Amounts payable to directors	-	1,155
	66,146	77,529

* Amounts payable to director related entities represent amounts payable to DMAW Lawyers for which Mr Davis is a partner and Ramelius Resources Limited for which Messrs Kennedy and Nelson are directors, Monax Mining Limited and Groundhog Services Pty Ltd.

25 OPERATING SEGMENTS

Segment information

Description of segments

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the consolidated entity that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance. The consolidated entity has identified its operating segments to be Gawler Craton, Curnamona and North America based on the differed geological regions and the similarity of assets within those regions. This is the basis on which internal reports are provided to the Board of Directors for assessing performance and determining the allocation of resources within the consolidated entity.

The consolidated entity operates primarily in one business, namely the exploration of minerals.

Basis of accounting for purposes of reporting by operating segment

Accounting policies adopted

Unless stated otherwise, all amounts reported to the Board of Directors, being the chief operating decision maker with respect to operating segments, are determined in accordance with accounting policies that are consistent to those adopted in the annual financial statements of the group.

Details of the performance of each of these operating segments for the financial years ended 30 June 2011 and 30 June 2010 are set out below:

DIRECTORS' DECLARATION

1 The Directors of Marmota Energy Limited declare that

(a) the financial statements and notes, as set out on pages 39 to 70, are in accordance with the Corporations Act 2001, and:

(i) giving a true and fair view of the financial position as at 30 June 2011 and of the performance for the year ended on that date of the consolidated entity; and

(ii) complying with Accounting Standards; and

(iii) Marmota Energy Limited complies with International Financial Reporting Standards as disclosed in Note 1.

(b) The Chief Executive Officer and Chief Financial Officer have declared that:

(i) The financial records of the Company for the financial year have been properly maintained in accordance with s286 of the Corporations Act 2001;

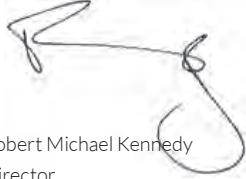

(ii) The financial statements and notes for the financial year comply with the accounting standards; and

(iii) The financial statement and notes for the financial year give a true and fair view;

(c) In the directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

Dated at Adelaide this 19th day of September 2011.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MARMOTA ENERGY LIMITED

Report on the financial report

We have audited the accompanying financial report of Marmota Energy Limited (the "Company"), which comprises the consolidated statement of financial position as at 30 June 2011, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the Company and the entity it controlled at the year's end or from time to time during the financial year.

Directors responsibility for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view of the financial report in accordance with Australian Accounting Standards and the Corporations Act 2001. This responsibility includes such internal controls as the Directors determine are necessary to enable the preparation of the financial report to be free from material misstatement, whether due to fraud or error. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards which require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

Grant Thornton Audit Pty Ltd ACN 130 913 594
a subsidiary or related entity of Grant Thornton Australia Ltd ABN 41 127 556 389

Grant Thornton Australia Limited is a member firm within Grant Thornton International Ltd. Grant Thornton International Ltd and the member firms are not a worldwide partnership. Grant Thornton Australia Limited, together with its subsidiaries and related entities, delivers its services independently in Australia.

Liability limited by a scheme approved under Professional Standards Legislation

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

- a the financial report of Marmota Energy Limited is in accordance with the Corporations Act 2001, including:
 - i giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and
 - ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and
- b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

Report on the remuneration report

We have audited the remuneration report included in the directors' report for the year ended 30 June 2011. The Directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion on the remuneration report

In our opinion, the remuneration report of Marmota Energy Limited for the year ended 30 June 2011, complies with section 300A of the Corporations Act 2001.

Notice of Annual General Meeting 2011

Notice is hereby given that the Annual General Meeting of Marmota Energy Limited ('Company') will be held at Enterprise House, 136 Greenhill Road, Unley SA on Friday, 18 November 2011 at 11:30am (Adelaide time).

AGENDA

ORDINARY BUSINESS

1. Financial Report

To receive and consider the Company's financial statements and independent audit report for the year ended 30 June 2011.

The Annual Financial Report is available at the website of the Company (www.marmotaenergy.com.au), under "Investors", "Corporate Reports", "Annual Reports".

2. Adoption of Remuneration Report

To consider and put the following resolution to a non-binding vote:

'That the Remuneration Report required by section 300A of the *Corporations Act 2001*, as contained in the Company's Directors' Report for the year ended 30 June 2011 be adopted.'

Voting Prohibition Statement

The Company shall disregard any votes cast in respect of Resolution 1 by key management personnel or their closely related parties (or any person voting on their behalf). However, the Company will not disregard a vote on Resolution 1 if:

- it is cast by a person as proxy for a member who is entitled to vote, in accordance with the directions on the proxy form; or
- it is cast by the Chairman of the meeting as proxy for a member who is

entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

3. Re-election of Mr RM Kennedy as a Director

To consider, and if thought fit, pass the following resolution as an ordinary resolution:

'That, Mr RM Kennedy being a director of the Company who retires by rotation in accordance with clause 47.1.3 of the Company's constitution, and being eligible, is re-elected as a director of the Company.'

SPECIAL BUSINESS

4. Employee Share Option Plan

To consider, and if thought fit, pass the following resolution as an ordinary resolution:

'That, with effect from the closure of this meeting and for the purposes of Exception 9 of ASX Listing Rule 7.2, section 260C(4) of the *Corporations Act 2001* and for all other purposes, approval is given for the Company to establish, administer and issue securities under the employee incentive scheme called the Marmota Energy Limited Employee Share Option Plan.'

The terms and conditions of the Marmota Energy Limited Employee Share Option Plan are summarised in the explanatory memorandum accompanying the notice convening this meeting.

ASX Voting Exclusion

The Company will disregard any votes cast in relation to this resolution by a director of the Company or their associates, except the directors who are ineligible to participate in any employment incentive scheme. However, in respect of this resolution, the Company need not disregard a vote if:

- it is cast by a person as a proxy for a person who is entitled to vote, in accordance with the directions on the Proxy Form; or
- it is cast by the person chairing the meeting as a proxy for a person who is entitled to vote, in accordance with a direction on the Proxy Form to vote as the proxy decides.

Voting Prohibition Statement

The Company shall disregard any votes cast in respect of Resolution 4 by key management personnel or their closely related parties (or any person voting on their behalf). However, the Company will not disregard a vote on Resolution 4 if:

- it is cast by a person as proxy for a member who is entitled to vote, in accordance with the directions on the proxy form; or
- it is cast by the Chairman of the meeting as proxy for a member who is entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

5. Amendments to Constitution

To consider, and if thought fit, pass the following resolution as a special resolution:

'That, pursuant to section 136(2) of the *Corporations Act 2001*, with effect from the closure of this meeting, the Constitution of the Company be amended in the manner set out in Annexure A to the notice convening this meeting.'

The amendments to the Constitution of the Company are described generally in the explanatory memorandum accompanying the notice.

6. Insertion of Proportional Takeover Approval provisions into the Constitution

To consider, and if thought fit, pass the following resolution as a special resolution:

'That, for the purposes of section 648G of the *Corporations Act 2001* and pursuant to section 136(2) of the *Corporations Act 2001*, with effect from the closure of this meeting, the Constitution of the Company be amended by inserting the proportional takeover approval provisions set out in Annexure A to the notice convening this meeting.'

The provisions of the proportional takeover approval are summarised in the explanatory memorandum accompanying the notice convening this meeting.

OTHER BUSINESS

To transact any further business that may be lawfully brought forward

Further information regarding the business to be transacted at the Annual General Meeting is set out in the explanatory memorandum accompanying the notice convening this

meeting. This notice should be read in conjunction with the accompanying explanatory memorandum which forms part of this notice.

By order of the Board

Virginia Suttell
Company Secretary

Date: 6 October 2011

NOTES

A member entitled to attend and vote at this meeting is entitled to appoint a proxy to attend and vote on the member's behalf. If the member is entitled to cast two or more votes at the meeting, the member may appoint up to two proxies to attend and vote on the member's behalf.

If a member appoints two proxies, each proxy must be appointed to represent a specified proportion or number of the member's votes. Absent this specification, each proxy will need to exercise half the votes.

A proxy need not be a member of the Company.

To appoint a proxy, a proxy form must be signed by the member or the member's attorney duly authorised in writing. If the member is a corporation, the proxy form must be signed in accordance with section 127 of the *Corporations Act 2001 (Cth)*.

To be effective, a proxy form (and, if it is signed by an attorney, the authority under which it is signed or a certified copy of the authority) must be received by the Company not later than 48 hours prior to the commencement of the meeting. Proxy form and authorities may be sent to Computershare Investor Services Pty Ltd, GPO Box 242, Melbourne VIC 3001, or in person to Computershare at Level 5, 115 Grenfell Street, Adelaide SA 5000, or by facsimile to Computershare on (within Australia) 1800 783 447 (outside Australia) +61 3 9473 2555 or to the Company on +61 8 8375 3999.

Members who forward their proxy forms by fax must make available the original executed form of the proxy for production at the meeting, if called upon to do so.

Custodian Voting – For Intermediary Online subscribers only (Custodians), please visit www.intermediaryonline.com to submit your voting intentions.

For the purpose of the meeting, shares in the Company will be taken to be held by those persons who are registered holders at close of business on Wednesday, 16 November 2011. Accordingly, transactions registered after that time will be disregarded in determining entitlements to attend and vote at the meeting.

The Constitution of the Company provides that 10 shareholders present in person, by proxy, attorney or body corporate representative shall be a quorum for a general meeting of the Company.

Corporate representatives are requested to bring appropriate evidence of appointments as a representative in accordance with the Constitution of the Company. Attorneys are requested to bring a Power of Attorney pursuant to which they are appointed. Proof of identity will also be required for corporate representatives and attorneys.

Explanatory Memorandum

Accompanying the Notice of Annual General Meeting to be held on 18 November 2011.

1. Financial Report

The Annual Financial Report together with the Directors' Report and Auditor's Report will be laid before the meeting in accordance with section 317 of the *Corporations Act 2001 (Cth)* ('Corporations Act'). Members will be given the opportunity to ask questions or make comments about the management of the Company and may also ask questions of the Auditor's representative relevant to the conduct of the audit and preparation and content of the Auditor's Report.

2. Remuneration Report

In accordance with section 250R of the *Corporations Act 2001*, the Company submits to shareholders for consideration and adoption by way of a non-binding resolution its Remuneration Report for the year ended 30 June 2011. The Remuneration Report is a distinct section of the Directors' Report that deals with the remuneration of Directors and Key Management Personnel of the Company and can be located on pages 33 to 37 in the 2011 Annual Report and also on the Company's website at: www.marmotaenergy.com.au.

The Remuneration Report sets out the Company's remuneration arrangements for its Directors, Officers and Senior Management.

Shareholders will be given reasonable opportunity at the meeting to discuss the report.

The Directors recommend shareholders vote in favour of the non-binding ordinary resolution. The Chairman intends to vote undirected proxies in favour of the resolution.

3. Re-election of Mr RM Kennedy as a Director

At the date of the Notice of Annual General Meeting, the Board of Directors of the Company comprises five directors. Mr Kennedy is required by the Company's constitution to retire

at the meeting. A retiring director is eligible for re-election.

Mr Kennedy offers himself for re-election by shareholders at the meeting. A brief description of the candidate is as follows:

Mr Robert Michael Kennedy ASAIT, Grad., Dip (Systems Analysis), FCA, ACIS, Life member AIM, FAICD.

Non-executive Chairman. Mr Kennedy is a chartered accountant and a consultant to Kennedy & Co, Chartered Accountants, a firm he founded. He joined Marmota in April 2006 as a non-executive director and has been the Chairman of Marmota since that date. He is also a director of ASX listed companies Beach Energy Ltd (since 1991) Ramelius Resources Limited (since 1995), Flinders Mines Limited (since 2001), Maximus Resources Limited (since 2004), Monax Mining Limited (since 2004), ERO Mining Limited (since 2006) and Somerton Energy Limited (since 2010). His special responsibilities include membership of the Audit and Corporate Governance Committee and the Remuneration and Nomination Committee. Mr Kennedy brings to the Board his expertise in finance and management consultancy and extensive experience as chairman and non-executive director of a range of listed public companies.

Mr Kennedy leads the development of strategies for the development and future growth of Marmota. He has participated in the Diggers & Dealers Mining Industry conferences for the last 3 years. He also conducts the review of the Board including the Managing Director in his executive role.

Apart from his attendance at Board and Committee meetings Mr Kennedy leads the Board's external engagement of the company meeting with industry participants Government and the Media. He is a regular attendee of Audit Committee functions of the major accounting firms. During the year he attended the

Masterclass of the Australian Institute of Directors with members of top ASX200 company boards. He has been appointed the Chairman of the University of Adelaide's Institute of Minerals and Energy Resources, is a mentor in the AICD's diversity program and is a regular presenter on topics relating to directors with the AICD and the CSA. In the area of Community Engagement he regularly attends functions held by institutions.

He was recently awarded Entrepreneur of the Year in the Ernst & Young Central Region awards in the listed category.

Mr Kennedy is not an Independent Director due to his role as an officer of Monax Mining Limited, a substantial shareholder. However, the Board considers that all Directors bring an independent judgement to bear on Board decisions and that the Chairman's expertise and experience adds considerable value to the Company.

The Board considers Mr Kennedy is not independent only in matters being considered that deal with Monax Mining Limited and he does not participate in the consideration of such matters. Matters that concern business dealings with Monax Mining Limited are discussed and considered by Independent Alternate Directors. Whilst Mr Kennedy has been appointed to a number of Resource Industry Boards, due to his extensive knowledge of the industry, the time required across these companies in no way impedes on his dedication to his role as Chairman of Marmota.

The Directors (with Mr Kennedy abstaining) recommend shareholders vote in favour of the resolutions. The Chairman intends to vote undirected proxies in favour of the resolution.

4. Employee Share Option Plan

This resolution proposes shareholder approval for the purposes of Exception 9(b) of ASX Listing Rule 7.2 for the establishment of the Marmota Energy Limited Employee Share Option Plan (**ESOP**) and the issue of securities under the ESOP. The two main purposes of the ESOP are to give an incentive to the employees and

directors to provide dedicated and ongoing commitment and effort to the Company and for the Company to reward employees and directors for their efforts. The ESOP contemplates the issue of options to subscribe for fully paid ordinary shares in the Company, to employees and directors of the Company.

Listing Rule 7.1 places certain restrictions on the extent to which a listed company may issue certain securities including options. The effect is that shareholder approval is required before the company may issue securities representing more than 15% of the capital of the Company within a 12 month period. However, certain issues are exempt from that Listing Rule and are effectively disregarded for the purposes of counting the number of securities which a company may issue.

Exempt issues include an issue of securities to persons participating in an employee option scheme where shareholders have approved the issue of securities under the scheme as an exemption from Listing Rule 7.1. Shareholder approval must be given in a general meeting held not more than 3 years before the date of issue where the notice of meeting contains or is accompanied by certain prescribed information (set out below) (Exception 9 of Listing Rule 7.2).

Any securities issued to directors under the ESOP will still require specific shareholder approval for that issue under Listing Rule 10.14.

In order to take advantage of the exemption from Listing Rule 7.1 and allow the Company greater flexibility to issue securities, shareholders are requested to approve the issue of securities under the ESOP as an exemption from Listing Rule 7.1. This approval will be effective from the date of the resolution. If approval is given, securities issued under the ESOP will be exempt from counting towards the 15% limit under Listing Rule 7.1.

Under section 260A(1) of the Corporations Act 2001, a company must not financially assist a person to acquire shares in the company or its holding company unless an exception applies. The relevant exception is set out under section 260C(4) which provides that financial

assistance will be exempted if it is given under an employee share scheme that has been approved by a resolution passed at a general meeting.

Under the ESOP, the Company may provide free options to eligible employees and directors. This may be considered 'financial assistance' within the meaning of the Corporations Act 2001. Accordingly, shareholder approval is sought for the purposes of section 260C(4) of the Corporations Act 2001.

In accordance with Exception 9(b) of Listing Rule 7.2, shareholders are provided with the following information.

Summary of Terms and Conditions of the ESOP

The key terms of the ESOP are as follows:

1. Employees and directors of the Company will be eligible to participate in the ESOP. The Directors, in their absolute discretion, will determine which employees and directors may participate.
2. The entitlements under the ESOP will be in the absolute discretion of the Directors.
3. Options will be granted free of charge.
4. The exercise price of the options will be determined by the Directors but will not be less than the market price (as defined in the ESOP) at the time the Directors resolve to issue the options.
5. The directors may limit the number of options which may be exercised in any one year.
6. Each option entitles the holder to subscribe for and be allotted one share.
7. All unexercised options expire 5 years from the date of grant.
8. If an employee ceases to be an employee of the Company all options which have not been exercised will lapse.

Since the 2008 Annual General Meeting, the following options have been issued under the

ESOP:

- 625,000 options on 23 December 2008;
- 400,000 options on 5 March 2010;
- 125,000 options on 21 December 2010; and
- 250,000 options on 29 July 2011.

Listing Rule 14.9 requires approval be given by an ordinary resolution of the Company.

Copies of the rules of the ESOP are available for inspection at the Company's registered office during business hours, or may be obtained free of charge by contacting the Company Secretary. The rules of the ESOP will also be made available at the Annual General Meeting.

The Directors recommend shareholders vote in favour of the resolution. The Chairman intends to vote undirected proxies in favour of the resolution.

5. Amendments to Constitution

The Directors are proposing that the Company constitution be amended in the manner set out in Annexure A to the notice convening this meeting. The Directors recommend the proposed amendments to ensure the Company constitution reflects the current legislative requirements and is relevant to the Company.

The principal proposed amendments to the Constitution are summarised below.

Clause 7.2

Inserting a new clause 7.2, so that any fractions arising out of a share conversion may be dealt with by the Board in one, or a combination, of ways, for example, by:

- making a cash payment or disregarding fractional entitlements; or
- vesting fractional entitlements to be dealt with as determined by the Board.

Various

Amending outdated references to “ASTC” and the “ASTC Settlement Rules” and adopting the recent name changes of some ASX entities following the transfer of market supervision to the Australian Securities and Investments Commission.

Clause 29

The proposed changes would allow the Company to sell the securities of shareholders holding an Unmarketable Parcel (as defined by the ASX Listing Rules) and to remit the proceeds of sale to those shareholders. The Company would be able to sell these shares on-market or place them with particular investors. However, the shareholder would have the option to retain their particular shareholding (but to retain their shares, the shareholder must take positive action and complete and return a form).

The Company would bear the transaction costs associated with the share sale, but apart from that there would be no capital outlay for the Company.

Clause 45.1

Reducing the maximum number of Company directors from 10 to 5.

Clause 69.1

Replacing the existing clause 69.1 with the following:

“Subject to the Corporations Act 2001, and the terms of issue of shares, the Directors may resolve to pay any dividend they consider appropriate and fix the time for payment. The Company does not incur a debt merely by fixing the amount or time for payment of a dividend. A debt arises only when the time fixed for payment arrives. The decision to pay a dividend may be revoked by the Directors at any time before then.”

On 28 June 2010, the Corporations Amendment (Corporate Reporting Reform) Act 2010 (Cth) (**CRR Act**) changed the circumstances in which a

dividend may be paid. The CRR Act replaced the profits test in section 254T of the Corporations Act 2001 with a three-tiered test. A company must not pay a dividend unless:

- the company’s assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend;
- it is fair and reasonable to the company’s shareholders as a whole; and
- it does not materially prejudice the company’s ability to pay its creditors.

Except as discussed above, the Directors consider the proposed changes will not materially alter the effect of the Company’s existing constitution or the rights of shareholders.

If you would like a copy of the Company’s proposed amended constitution (which will be made available at no charge), please contact the Company Secretary. Alternatively, a copy of the Company’s proposed amended constitution will be released to the ASX shortly after the Annual General Meeting.

The Directors recommend shareholders vote in favour of the proposed amendments to the Company’s constitution. The Chairman intends to vote undirected proxies in favour of the resolution.

6. Insertion of Proportional Takeover Approval provisions into the Constitution

Introduction

The Directors consider that it is in the best interests of the shareholders of the Company for the Company constitution to contain provisions dealing with proportional takeovers.

Section 648G of the Corporations Act 2001 enables the Company to include in its constitution a clause to provide the Company with the ability to refuse to register shares acquired under a proportional takeover bid, unless a resolution is passed by the shareholders of the Company in a general

meeting that approves the takeover bid.

A proportional takeover bid is an off-market takeover offer that is sent by the bidder to all shareholders of the Company, offering to acquire a portion of each shareholder's shares in the Company.

When it was adopted, the constitution of the Company contained proportional takeover provisions (at clause 44). By operation of section 648G(1)(a) of the Corporations Act 2001, these provisions expired three years from the date the constitution came into effect. Under section 648G(3) the proportional takeover provisions were deemed to be omitted from the constitution.

Clause 44 takeover provisions

The proportional takeover provisions proposed to be inserted back into the Company's constitution at clause 44 are attached to this explanatory memorandum.

Effect of proportional takeover provisions

Having proportional takeover provisions in the Company's constitution ensures that if a proportional takeover bid is made, it will need to be put to a shareholders vote. The shareholders of the Company would need to consider a resolution whether to accept or reject the takeover bid. The resolution can only be approved by shareholders if it is passed by a simple majority of votes.

If the resolution fails, the takeover bid will be treated as withdrawn by the bidder and no transfer of shares would be registered.

The provisions of the Corporations Act 2001 that are applicable to a general meeting of the Company are applicable to any meeting of shareholders convened to consider a resolution in relation to a proportional takeover bid, subject to whatever modifications the Directors consider necessary.

Reasons for proposing this resolution

Without proportional takeover provisions in the Company's constitution, there is a significant

risk that control of the Company could change hands without the shareholders of the Company having the opportunity to dispose of all of their shares.

By including the proportional takeover provisions, shareholders of the Company will be able to decide whether a proportional takeover bid is acceptable to them.

Substantial Interest

As at the date of this explanatory memorandum, none of the Directors are aware of any proposal by any person to acquire or to increase the extent of a substantial interest in the Company.

Advantages and disadvantages of the takeover provisions for Directors

The Directors do not consider the takeover provisions to be reinserted as clause 44 to have any potential advantages or disadvantages for the Directors of the Company. Inclusion of the takeover provisions has no bearing on the ability of the Directors to recommend to shareholders whether a proportional takeover bid should be accepted or not.

Advantages for shareholders

By reinserting the proportional takeover provisions into the Company's constitution (at clause 44), shareholders will have the right to decide by majority vote whether to accept or reject a proportional takeover bid.

These provisions will also provide shareholders with bargaining power and may assist in ensuring that any proportional takeover bid is structured to be attractive to shareholders.

Disadvantages for shareholders

By inserting this clause 44 back into the Company's constitution, potential bidders for the shares of the Company may be discouraged.

There is also a potential risk that shareholders may not be able to sell their shares at a premium.

Recommendation of directors

The Directors consider the benefits of the takeover provisions to the Company and to shareholders outweighs any potential disadvantages that may arise.

The Directors recommend that shareholders vote in favour of the resolution to insert the clause 44 takeover provisions into the company's constitution.

UNDIRECTED PROXIES

- If a member appoints the chairperson of the meeting as the member's proxy and does not specify how the chairperson is to vote on a resolution, except as expressly stated, the chairperson advises that he intends to vote each such proxy, as proxy for that member, in favour of the resolution on a poll. Therefore, the Company recommends that shareholders who submit proxies should consider giving 'how to vote' directions to their proxy holder (including the chairperson) on each resolution.
- **If you complete a proxy form that authorises the chairperson of the meeting to vote on your behalf as proxy holder, and you do not mark any of the boxes so as to give him directions about how your vote should be cast, then your proxy will automatically become a directed proxy in favour of the resolution to adopt the Remuneration Report, and the chairperson will vote accordingly. If you wish to appoint the chairperson as your proxy holder but you do not want to put him in the position to cast your votes in favour of the Remuneration Report, you should complete the appropriate box on the proxy form, directing him to vote against or abstain from voting on that resolution.**

Definitions

Key management personnel (KMP) of the Company are, as adopted from the Australian Accounting Standards Board, those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly and indirectly, including any director (whether executive or otherwise) of the Company.

Closely related parties of the Company's KMP include certain family members, dependants and companies they control.

Annexure A

Insert the following clause 7.2:

7.2 The Board may do anything it thinks appropriate and necessary to give effect to a resolution converting shares including, if a shareholder becomes notionally entitled to a fraction of a share as a result of the conversion:

- 7.2.1 make a cash payment or disregard fractional entitlements so as to adjust the rights of shareholders between themselves; or
- 7.2.2 vest fractional entitlements in a trustee to be dealt with as determined by the Board.

Amend clause 24.2 by removing the struck out text and inserting the underlined text as follows:

24.2 If the Company is admitted to the official list of ASX, the Company must not prevent, delay or interfere with the generation of a ~~proper SCH transfer~~ Proper Transfer or the registration of a paper-based transfer in registrable form. However, the Company may ask ~~SCH ASX Settlement~~ to apply a holding lock to prevent a ~~proper SCH transfer~~ Proper Transfer, or refuse to register a paper-based transfer, where permitted by the Corporations Act 2001 or the Listing Rules. The Company must do so if the Corporations Act 2001 or the Listing Rules so require.

Replace clause 29 with the following:

29. **Unmarketable Parcel**

29.1 In this clause:

- 29.1.1 **Effective Date** means the date immediately following the expiry of the period referred to in the notice given by the Company to Unmarketable Parcel Holders in accordance with this clause 29;
- 29.1.2 **Unmarketable Parcel** means a parcel of shares of a single class registered in the same name or the same joint names which is less than:
 - (a) the number that constitutes a marketable parcel of shares of that class under the Listing Rules; or
 - (b) subject to the Corporations Act 2001, the Listing Rules and the ASX Settlement Rules, any other number determined by the Directors from time to time.
- 29.1.3 **Unmarketable Parcel Holder** means a Member holding an Unmarketable Parcel.

29.2 The Company may give written notice to an Unmarketable Parcel Holder advising of the Company's intention to sell its Unmarketable Parcel under this clause 29. If the Company does so, the notice must:

- 29.2.1 state that it intends to sell the Unmarketable Parcel; and
- 29.2.2 specify a date at least six weeks (or any lesser period permitted under the Corporations Act 2001 or the Listing Rules) after the notice is given by which the

Unmarketable Parcel Holder may give the Company written notice that the Unmarketable Parcel Holder wishes to retain the holding.

- 29.3 The Company must not sell an Unmarketable Parcel if, in response to a notice given by the Company under clause 29.2, the Company receives a written notice within the specified time referred to in clause 29.2(b) that the Unmarketable Parcel Holder wants to keep the Unmarketable Parcel.
- 29.4 If an Unmarketable Parcel Holder has given written notice to the Company that it wishes its shares to be exempted from this clause, it may at any time before the Effective Date revoke or withdraw that notice and the provision of this clause will then apply to the shares held by that Unmarketable Parcel Holder.
- 29.5 Subject to clause 29.3, on and from the Effective Date, the Company may sell or otherwise dispose of the shares held by each Unmarketable Parcel Holder on any terms and in that manner and at those times which the Directors determine. For the purpose of selling or disposing of those shares, each Unmarketable Parcel Holder irrevocably:
 - 29.5.1 appoints the Company as its agent to sell all the shares it holds;
 - 29.5.2 appoints the Company and each Director and Secretary from time-to-time jointly and severally as its attorney in its name and on its behalf to effect a transfer document for its shares and to otherwise act to effect a transfer of its shares; and
 - 29.5.3 appoints the Company as its agent to deal with the proceeds of sale of those shares in accordance with this clause.
- 29.6 A sale of shares under this clause 29 includes all dividends payable on and other rights attaching to them.
- 29.7 The Company will pay all costs and expenses of the sale and disposal of Unmarketable Parcels under this clause 29.
- 29.8 Once the name of the new holder of the share sold or disposed of in accordance with this clause is entered in the register of shareholders for those shares, the title of the new holder of those shares is not affected by any irregularity or invalidity on connection with the sale or disposal of those shares and the validity of the sale may not be impeached by any person.
- 29.9 The remedy of any Unmarketable Parcel Holder who is aggrieved by the sale or disposal of its shares under this clause is limited to a right of action in damages against the Company to the exclusion of any other right, remedy or relief against any other person.
- 29.10 A written statement declaring that the person making the statement is a Director or Secretary of the Company and that the shares of an Unmarketable Parcel Holder have been dealt with in accordance with this clause, is conclusive evidence of the facts stated in the statement as against all persons claiming to be entitled to those shares.

- 29.11 The Company's receipt of the sale proceeds of the shares of the Unmarketable Parcel Holder is a good discharge to the purchaser of all liability in respect of the purchase of those shares and the purchaser will not be bound to see to the application of the money paid as consideration.
- 29.12 The Company will receive the proceeds of the shares of each Unmarketable Parcel Holder and will deal with those proceeds as follows. It must:
 - 29.12.1 pay the proceeds into a separate bank account which it opens and maintains for that purpose;
 - 29.12.2 hold the proceeds in trust for the Unmarketable Parcel Holder;
 - 29.12.3 as soon as practicable, notify the Unmarketable Parcel Holder in writing of the receipt and that the proceeds are being held by the Company pending receipt of the share certificate (if any) for those shares sold or disposed of or, if those certificates have been lost or destroyed, a statement and undertaking in accordance with the Corporations Act 2001, and seeking instructions from the Unmarketable Parcel Holder as to how the proceeds are to be dealt with;
 - 29.12.4 if the shares sold were certificated, not pay the proceeds of sale out of the trust account until it has received the certificate for them or, if that certificate has been lost or destroyed, evidence of its loss or destruction and a statement and undertaking in accordance with the Corporations Act 2001;
 - 29.12.5 subject to clause 29.12.4, deal with the sale proceeds as instructed by the Unmarketable Parcel Holder on whose behalf they are held; and
 - 29.12.6 if the whereabouts of the Unmarketable Parcel Holder are unknown or no instructions are received from the Unmarketable Parcel Holder within 2 years of the proceeds being received by the Company, deal with those proceeds according to the applicable laws dealing with unclaimed moneys.
- 29.13 The power of the Company to sell lapses if a takeover (as defined in the Listing Rules) is announced after the Company gives a notice under clause 29.2 and before the Company enters into an agreement to sell the share. The procedures set out in this clause 29 may be started again after the close of offers under the takeover.
- 29.14 The provisions of this clause 29 may be invoked only once in any 12 month period.

Reinsert the following clause 44:

44. Proportional takeovers

- 44.1 If offers are made under a proportional takeover bid for securities of the Company:

- 44.1.1 the registration of a transfer giving effect to a takeover contract for the bid is prohibited unless and until a resolution (an **approving resolution**) to approve the bid is passed in accordance with this clause;
- 44.1.2 a person (other than the bidder or an associate of the bidder) who, as at the end of the day on which the first offer under the bid was made, held bid class securities is entitled to vote on an approving resolution;
- 44.1.3 the Directors may determine whether an approving resolution is voted on:
 - (a) at a meeting, convened and conducted by the Company, of the persons entitled to vote on the resolution; or
 - (b) by means of a postal ballot conducted by the Company in accordance with the procedure set out in this clause;
- 44.1.4 an approving resolution that has been voted on is taken to have been passed if the proportion that the number of votes in favour of the resolution bears to the total number of votes on the resolution is greater than 50%, and otherwise is taken to have been rejected.
- 44.2 The provisions that apply to a general meeting of the Company apply, with such modifications as the Directors decide are necessary, to a meeting convened under this clause.
- 44.3 In a postal ballot:
 - 44.3.1 the Company must send a notice of postal ballot and ballot paper, to all persons holding bid class securities, at least 14 days (or any shorter period the Directors decide) before the date specified for the close of the postal ballot (**ballot closing date**);
 - 44.3.2 non-receipt of a notice of postal ballot or ballot paper, or accidental failure to give a notice of postal ballot or ballot paper to a shareholder entitled to receive them, does not invalidate the postal ballot and any resolution passed under the postal ballot;
 - 44.3.3 the notice of postal ballot must contain the text of the proposed resolution and the ballot closing date, and may contain any other information the Directors consider appropriate;
 - 44.3.4 each ballot paper must specify the name of the shareholder entitled to vote;
 - 44.3.5 a postal ballot is only valid if the ballot paper is properly completed and:
 - (a) if the shareholder is an individual, signed by the individual or a duly authorised attorney; or
 - (b) if the shareholder is a corporation, executed by the corporation in any way permitted by its constitution or the Corporations Act 2001 or by a duly authorised officer or duly authorised attorney;
 - 44.3.6 a postal ballot is only valid if the Company receives the ballot paper (and any authority under which the ballot paper is signed or a certified copy of the

authority) before the close of business on the ballot closing date at the registered office or share registry of the Company or any other place specified for that purpose in the notice of postal ballot;

44.3.7 a person may revoke a postal ballot vote by notice received by the Company before the close of business on the ballot closing date.

Amend clause 45.1 by removing the struck out text and inserting the underlined text as follows:

45.1 There must be at least 3 directors and at most 10 5 directors.

Replace clause 69.1 with the following:

69.1 Subject to the Corporations Act 2001, and the terms of issue of shares, the Board may resolve to pay any dividend they consider appropriate and fix the time for payment. The Company does not incur a debt merely by fixing the amount or time for payment of a dividend. A debt arises only when the time fixed for payment arrives. The decision to pay a dividend may be revoked by the Board at any time before then.

Amend clauses 103.7 and 103.8 by removing the struck out text and inserting the underlined text as follows:

103.7 the Company must not exercise any power in contravention of the Corporations Act 2001 or the Listing Rules or the ~~ASTC ASX~~ Settlement Rules.

103.8 a reference to the Listing Rules and the ~~ASTC ASX~~ Settlement Rules applies only while the Company is admitted to the official list of ASX.

Delete the following definitions in clause 104:

~~ASTC~~ means ASX Settlement and Transfer Corporation Pty Ltd ACN 008 504 532;

~~ASTC Settlement Rules~~ means the operating rules of ~~ASTC~~ for the purposes of the Corporations Act 2001;

Insert the following definitions in clause 104:

ASX Settlement means ASX Settlement Pty Limited (ABN 49 008 504 532);

ASX Settlement Rules means the operating rules of ASX Settlement and, to the extent that they are applicable, the operating rules of each ASX and ASX Clear Pty Limited (ABN 48 001 314 503);

Board means the Directors acting collectively under this document;

Proper Transfer means a transfer which is under the scope of and which complies with (or is taken to comply with) the ASX Settlement Rules.

Amend the following definitions in clause 104 by removing the struck out text and inserting the underlined text as follows:

~~ASX~~ means Australian Stock Exchange ASX Limited (ABN 98 008 624 691) and any successor body;

CHESS Rules means the ~~ASTC ASX~~ Settlement Rules and the provisions of the Corporations Act 2001, and the Listing Rules about the electronic share registration and transfer system;

ABN 38 119 270 816

Proxy Form

For your vote to be effective it must be received by 11:30am (Adelaide time) Wednesday 16 November 2011

How to Vote on Items of Business

All your securities will be voted in accordance with your directions.

Appointment of Proxy

Voting 100% of your holding: Direct your proxy how to vote by marking one of the boxes opposite each item of business. If you do not mark a box your proxy may vote as they choose. If you mark more than one box on an item your vote will be invalid on that item.

Voting a portion of your holding: Indicate a portion of your voting rights by inserting the percentage or number of securities you wish to vote in the For, Against or Abstain box or boxes. The sum of the votes cast must not exceed your voting entitlement or 100%.

Appointing a second proxy: You are entitled to appoint up to two proxies to attend the meeting and vote on a poll. If you appoint two proxies you must specify the percentage of votes or number of securities for each proxy, otherwise each proxy may exercise half of the votes. When appointing a second proxy write both names and the percentage of votes or number of securities for each in Step 1 overleaf.

A proxy need not be a securityholder of the Company.

Signing Instructions

Individual: Where the holding is in one name, the securityholder must sign.

Joint Holding: Where the holding is in more than one name, all of the securityholders should sign.

Power of Attorney: If you have not already lodged the Power of Attorney with the registry, please attach a certified photocopy of the Power of Attorney to this form when you return it.

Companies: Where the company has a Sole Director who is also the Sole Company Secretary, this form must be signed by that person. If the company (pursuant to section 204A of the Corporations Act 2001) does not have a Company Secretary, a Sole Director can also sign alone. Otherwise this form must be signed by a Director jointly with either another Director or a Company Secretary. Please sign in the appropriate place to indicate the office held. Delete titles as applicable.

Attending the Meeting

Bring this form to assist registration. If a representative of a corporate securityholder or proxy is to attend the meeting you will need to provide the appropriate "Certificate of Appointment of Corporate Representative" prior to admission. A form of the certificate may be obtained from Computershare or online at www.investorcentre.com under the information tab, "Downloadable Forms".

Comments & Questions: If you have any comments or questions for the company, please write them on a separate sheet of paper and return with this form.

SRN/HIN:

PLEASE NOTE: For security reasons it is important that you keep your SRN/HIN confidential.

Change of address. If incorrect, mark this box and make the correction in the space to the left. Securityholders sponsored by a broker (reference number commences with 'X') should advise your broker of any changes.

Proxy Form

Please mark to indicate your directions

STEP 1

Appoint a Proxy to Vote on Your Behalf

I/We being a member/s of Marmota Energy Limited hereby appoint

the Chairman
of the Meeting

OR

PLEASE NOTE: Leave this box blank if you have selected the Chairman of the Meeting. Do not insert your own name(s).

or failing the individual or body corporate named, or if no individual or body corporate is named, the Chairman of the Meeting, as my/our proxy to act generally at the meeting on my/our behalf and to vote in accordance with the following directions (or if no directions have been given, as the proxy sees fit) at the Annual General Meeting of Marmota Energy Limited to be held at Enterprise House, 136 Greenhill Road, Unley SA on Friday, 18 November 2011 at 11:30am (Adelaide time) and at any adjournment of that meeting.

Important for Items 2 & 4 - If the Chairman of the Meeting is your proxy or is appointed as your proxy by default

Important for Item 2 - If you do not mark any of the boxes in step 2 below on Item 2 you are directing the Chairman of the Meeting to vote in accordance with the Chairman's voting intentions as set out below and in the Notice of Meeting even though Item 2 is connected directly or indirectly with the remuneration of a member of key management personnel. Please note you can direct the Chairman of the Meeting to vote for, against or abstain from voting on Item 2 by marking the appropriate box in step 2 below.

Important for Item 4 - You authorise the Chairman of the Meeting to exercise your proxy on Item 4 even though the item is connected directly or indirectly with the remuneration of a member of key management personnel. For Item 4, this authority is also subject to you marking the box in the section below.

Important for Item 4: If the Chairman of the Meeting is your proxy and you have not directed him/her how to vote on Item 4 below, please mark the box in this section. If you do not mark this box and you have not directed your proxy how to vote, the Chairman of the Meeting will not cast your votes on Item 4 and your votes will not be counted in computing the required majority if a poll is called on this item. The Chairman of the Meeting intends to vote undirected proxies in favour of Item 4 of business.

I/We acknowledge that the Chairman of the Meeting may exercise my proxy even if he/she has an interest in the outcome of that item and that votes cast by him/her, other than as proxy holder, would be disregarded because of that interest.

STEP 2

Items of Business

PLEASE NOTE: If you mark the **Abstain** box for an item, you are directing your proxy not to vote on your behalf on a show of hands or a poll and your votes will not be counted in computing the required majority.

ORDINARY BUSINESS

Item 2 Adoption of Remuneration Report

For	Against	Abstain
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Item 3 Re-election of Mr RM Kennedy as a Director
